PROPOSED CONDITIONS of APPROVAL

- 1) **THAT** the Owner's solicitor, in preparation for the issuance of the Certificate of Consent, provide to the Secretary-Treasurer of the County of Wellington Planning and Land Division Committee a printed copy of the "completed electronic transfer document in preparation".
- 2) **THAT** the Solicitor for the Owner give an undertaking in writing to provide to the Secretary-Treasurer of the County of Wellington Planning and Land Division Committee within 30 days of the date of registration in the Land Registry/Land Titles Office for Wellington (No. 61) a copy of the receipted and registered electronic transfer document including the Form 2 Certificate for Consent
- 3) **THAT** the Owner, as provided for under Section 69 of the Planning Act, R.S.O. 1990, shall pay to the Treasurer of the County of Wellington the administrative fee which is in effect at the time of the payment of the fee for the review and issuance of the Certificate of Consent for the severed parcel.
- 4) **THAT** the transfer for registration with respect to description complies with Ontario Regulation 43-96; and if that description contains a reference to a Reference Plan(s), the Owner's solicitor shall provide a full print of that deposited reference plan(s) as well as a digital PDF copy to the secretary-treasurer of the Planning and Land Division Committee.
- 5) **THAT** the Owner receive zoning compliance and classification from the Township of Centre Wellington and the County of Wellington Planning Department to prohibit a new residential dwelling on the retained parcel in a manner deemed acceptable; and that the Township of Centre Wellington and the County of Wellington Planning Department file with the Secretary-Treasurer of the Planning and Land Division Committee a letter of clearance of this condition.
- 6) **THAT** the Owner satisfy all the requirements of the Township of Centre Wellington, financial and otherwise (included but not limited to Taxes paid in full; copy of Deposited Reference Plan; undertaking to advise Township when deed is Registered) which the Township of Centre Wellington may deem to be necessary at the time of issuance of the Certificate of Consent for the proper and orderly development of the subject lands; and further that the Township of Centre Wellington file with the Secretary-Treasurer of the Planning and Land Division Committee a letter of clearance of this condition.
- 7) **THAT** zoning compliance (retained parcel to restrict residential and address side yard setback deficiency for drive shed); and further that the Township of Centre Wellington file with the Secretary-Treasurer of the Planning and Land Division Committee a letter of clearance of this condition.
- 8) **THAT** the proposed severed parcel, confirmation that the existing septic system is functioning properly and that it has been pumped if necessary to the satisfaction of the Chief Building Official; and further that the Township of Centre Wellington file with the Secretary-Treasurer of the Planning and Land Division Committee a letter of clearance of this condition.
- 9) **THAT** the proposed retained parcel, confirmation that the manure storage facility and remnants of the barn structure have been removed to the satisfaction of the Chief Building Official; and further that the Township of Centre Wellington file with the Secretary-Treasurer of the Planning and Land Division Committee a letter of clearance of this condition.
- 10) **THAT** the Owner receive zoning compliance and classification from the Township of Centre Wellington and the County of Wellington Planning Department to prohibit a new residential dwelling on the retained parcel in a manner deemed acceptable; and that the Township of Centre Wellington and the County of Wellington Planning Department file with the Secretary-Treasurer of the Planning and Land Division Committee a letter of clearance of this condition.

Application	B75/21
Location	Part Lot 24, Concession 4 TOWNSHIP OF CENTRE WELLINGTON (WEST GRAFRAXA)
Applicant/Owner	Pamela, Lidwina & Johannes Teselink

PLANNING OPINION: This application would sever a 0.6 ha (1.48 ac) rural residential parcel with an existing dwelling and a garage. A 38 ha (93.9 ac) agricultural parcel would be retained with an existing drive shed. The barn foundation and manure tank are to be removed. This application includes 162m² easement for an existing overhead hydro line. This application is being submitted under the surplus farm dwelling policies.

This application is consistent with Provincial Policy and would generally conform to the Official Plan. We have no concerns provided the following matters are addressed as conditions of approval:

- a) That the barn foundation and manure tank on the retained lands is removed to the satisfaction of the local municipality; and
- b) That the retained lands be rezoned to restrict residential development to the satisfaction of the local municipality and the County of Wellington Planning and Development Department.

PLACES TO GROW: The Growth Plan for the Greater Golden Horseshoe, 2019, came into effect on May 16, 2019. The result of recent changes to the Growth Plan means the natural heritage system policies and the agricultural system mapping will not apply until fully incorporated into the County's Official Plan. All planning decisions are required to conform with the Growth Plan.

The proposed lot is located outside of any Key Natural Heritage Feature and Key Hydrological Features.

PROVINCIAL POLICY STATEMENT (PPS): Section 2.3.4.1 states "Lot creation in prime agricultural areas is discouraged and may only be permitted for: c) a residence surplus to a farming operation...". There are no MDS concerns provided the barn and manure tank are remove from the retained parcel as a condition.

WELLINGTON COUNTY OFFICIAL PLAN: The subject property is designated PRIME AGRICULTURAL. According to Section 10.3.4, a severance may be considered for an existing residence that is surplus to a farming operation as a result of farm consolidation, provided that:

- a) the remaining vacant farmland is large enough to function as a significant part of the overall farm unit; and
- b) the result of removing the surplus dwelling from the farm does not render the remaining farmlands difficult or inefficient to farm; and
- c) the amount of good farmland retained with the surplus house is kept to a minimum size needed for residential purposes, taking into consideration environmental and topographic features; and
- d) the surplus residence is habitable and is not expected to be demolished by a future owner; and
- e) the Minimum Distance Separation formula will be met; and
- f) the vacant parcel of farmland is rezoned to prohibit a residential use.

The intention of this policy is to allow farmers to reduce their costs of acquiring additional farm parcels, where the impact on existing and future farm operations can be kept to a minimum.

With respect to the above criteria, we are satisfied that this application conforms to criteria a), b), c), d) and e). Item f) can be addressed as a condition of approval.

In terms of the overall farm operation, we have been provided with a farm information form including a list of other farm holdings owned by the applicants, which demonstrates that this application would constitute a farm consolidation.

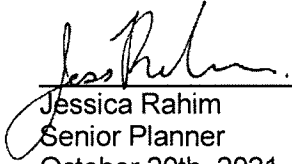

WELL HEAD PROTECTION AREA: The subject property is not located within a WHPA.

LOCAL ZONING BY-LAW: The subject property is currently zoned Agricultural (A) Zone. Both the severed and retained lands meet the minimum lot area and frontage requirements of the Agricultural (A) Zone. The applicants are proposing to keep the drive shed on the retained parcel for storage of farm equipment, which has an approximate setback of 11 metres to the proposed new lot line. As part of the surplus farm severance policies a standard condition is required to prohibit future residential uses on the retained lands. The reduced side yard setback for the drive shed can be recognized through the required zoning amendment.

GRCA COMMENT:*

SECRETARY TREASURER
WELLINGTON COUNTY
LAND DIVISION COMMITTEE

The Grand River Conservation Authority (GRCA) has no objection to the above-noted consent application.

BACKGROUND:

1. Resource Issues:

Information currently available at this office indicates that the retained parcel contains a watercourse and the regulated allowance adjacent to the watercourse.

The lands to be severed to not contain any features of interest to the GRCA.

2. Legislative/Policy Requirements and Implications:

The lands to be severed are setback from the watercourse and the existing agricultural uses will continue on the retained lands. As such, GRCA staff do not anticipate any negative impacts to the watercourse as a result of the proposed consent application.

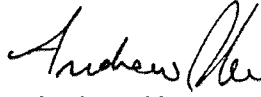

Due to the presence of the above-noted features, a portion of the retained parcel is regulated by the GRCA under Ontario Regulation 150/06 - Development, Interference with Wetlands and Alterations to Shorelines and Watercourses Regulation. Any future development or other alteration within the regulated area will require prior written approval from the GRCA in the form of a permit pursuant to Ontario Regulation 150/06.

3. Additional Information/Suggestions provided in an advisory capacity:

We wish to acknowledge receipt of the applicable plan review fee in the amount of \$430.00 for the processing of this application.

We trust the above information is of assistance. Should you have any further questions, please contact me at 519-621-2763 ext. 2228.

Attention: Ms. Deborah Turchet

Dear Ms. Turchet,

Re: Surplus Farm Residence Severance Application and Sketch
7122 Wellington Road No. 16
Part of Lot 24, Concession 4
PIN 71125-0006
Geographic Township of West Garafraxa
Township of Centre Wellington

Please find enclosed an application for a Surplus Farm Residence Severance on the above-mentioned property. Included with this submission are copies of the Severance Sketch, completed application form, required deeds, PIN report and map, addresses of neighbouring properties, Farm Information Form, a cheque to the GRCA for \$430.00, and a cheque to Wellington County for \$4,630.00.

Proposal:

The proposal is to sever a surplus farm dwelling from the rest of the agricultural farm parcel. The subject property is known as #7122 Wellington Road 16 (PIN 71125-0006). The proposed severed parcel has a width of 82±m, depth of 75±m for an area of 0.6±ha where the existing dwelling and garage will remain. The parcel was configured around the existing driveway, buildings, septic, well and natural features. The zoning requirements are met for this parcel.

The retained parcel has an area of approximately 38±ha and is used as part of a large-scale agricultural farming operation known as Hans & Ludie Tesselink Farms. The retained parcel contains a drive shed that will remain for storage. The remains of a barn foundation on the retained parcel will be removed, as well the existing manure tank. There is an existing field entrance along the northern most corner of the property that will continue to provide access to the retained parcel.

www.vanharten.com

The application also includes a request for an easement for the hydro line on the retained parcel, in favour of the severed parcel. The hydro line continues to the primary public service across the road. An easement for the hydro service will be much more practical than a new service directly in front of the house. The proposed easement will have a width of $4\pm\text{m}$ and a depth of $41\pm\text{m}$, for an area of $162\pm\text{m}^2$. The hydro line to the drive shed on the retained parcel will be disconnected.

The farmer wants to keep the drive shed on the retained parcel. This shed of 15.2m by 24.5m is in good shape and will be used to store equipment. The hydro power will be disconnected as hydro will not be required. The shed will be about 11m from the new property line – giving the farmer room to access the main doors facing the severance. The shed might not meet all the zoning by-law requirements in which case the pending zone change application will incorporate the appropriate requirements.

This type of severance meets the key requirements of Section 10.3.4 of the Wellington County Official Plan for surplus farm residence severances. The key requirements for a "Surplus Residence Severance" which have been met and are described below:

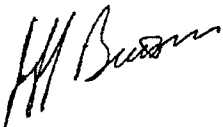

First, there must be a Bona Fide Farmer for the farmland. Hans Teselink owns this farm as part of their large-scale farming operation known as Hans & Ludie Tesselink Farms and will continue to farm this property. The Farm Information Form shows that Hans & Ludie Tesselink Farms has a number of additional farm properties in the area.

Second, the retained agricultural lands are to be rezoned to prohibit a residential use. A zone change application will be submitted shortly.

Third, the severed surplus parcel is to be no larger than the area of residence and not disrupt the farming operation. The proposed parcel has an area of $0.6\pm\text{ha}$ and has been configured around the existing dwelling, garage, septic, driveway, edge of field and natural features. The proposed lot lines run along the existing edge of field, trees and cut grass and contains minimal agricultural field. The proposed lot configuration is logical to accommodate the existing buildings and takes into consideration environmental and topographic features.

Please call me if you or the Planning Staff have any questions.

Very truly yours,
