#### Minutes

January 17, 2023 County Administration Centre Guthrie Room Warden Andy Lennox Councillor Jeff Duncan (Chair) Councillor Diane Ballantyne Councillor Doug Breen Councillor Doug Breen Councillor Matthew Bulmer Councillor David Anderson Councillor Campbell Cork Councillor Steve O'Neill Simon Burgess, Operating Budget and Cash Ma

Simon Burgess, Operating Budget and Cash Manager Jana Burns, Director, Economic Development Nicole Cardow, Deputy Clerk Justine Dainard, Smart Cities Project Manager Ken DeHart, County Treasurer Jordan Grigg, Sustainability Programme Coordinator Scott Wilson, CAO

#### 1. Call to Order

At 10:00 am, the Chair called the meeting to order.

#### 2. Declaration of Pecuniary Interest

There were no declarations of pecuniary interest.

#### 3. 2023 Budget - Economic Development

1/1/23

Moved by: Councillor Ballantyne Seconded by: Councillor Breen

That the 2023 Operating and Capital Budget and 2023-2032 Ten-Year Plan for Economic Development be approved and forwarded to the Administration, Finance and Human Resources Committee.

Carried

#### 4. 2022 Experimental Acres Report

2/1/23

Moved by: Councillor Bulmer Seconded by: Councillor Breen

That the 2022 Experimental Acres Report be received for information.

#### Carried

#### 5. January 2023 Economic Development Update

3/1/23

Moved by: Warden Lennox Seconded by: Councillor Ballantyne

That the County of Wellington Economic Development Update for January 2023 be received for information.

Carried

#### 6. Adjournment

At 11:25am, the Chair adjourned the meeting until February 21, 2023 or at the call of the Chair.

Jeff Duncan Chair Economic Development Committee

COUNTY OF WELLINGTON

### COMMITTEE REPORT

| То:      | Chair and Members of the Economic Development Committee |
|----------|---|
| From:    | Jordan Grigg, Sustainability Programme Coordinator      |
| Date:    | Tuesday, January 17, 2023                               |
| Subject: | 2022 Experimental Acres Report                          |

#### **Background:**

Our Food Future's Experimental Acres pilot ran for its first season in 2022. Experimental Acres supports farmers in their transition to regenerative, sustainable farming. Regenerative agriculture encompasses a wide variety of management strategies with the goal of improving environmental conditions while maintaining the level of food production we rely on. Regenerative practices often overlap with Ontario Ministry Agriculture, Food and Rural Affairs determined 'Best Management Practices' and include precision agriculture, reduced tillage, cover cropping, rotational pasture grazing and more.

The Experimental Acres pilot was introduced in accordance with the County's climate change mitigation plan, Future Focused. Agricultural emissions are biogenic sources of greenhouse gases emissions, with enteric fermentation, manure management and soil management being largest contributing factors. During the creation of the plan, regenerative agriculture was identified as a path to mitigate biogenic emissions and sequester atmospheric carbon.

When transitioning to climate friendly farming practices, economic benefits emerge after about five years. Within the first five years, a decrease in farm profit may be seen due to implementation costs and yield declines. After about five years, many practices turn profitable and farm revenue increase, compared to conventional systems. The Experimental Acres pilot was designed to de-risk the transition period by providing financial and education support to farmers. The pilot is meant to act as an on-ramp to larger funding opportunities, such as the County-supported Rural Water Quality Programme (RWQP).

#### 2022 Activities

The Experimental Acres pilot was designed in 2021 by Arrell Food Scholars and Smart Cities Office and fine-tuned with help from local agricultural experts. During the design process, Dufferin County's Climate Change division offered to twin the pilot and provide \$6,000 in funding for Dufferin farmers to participate.

Fifteen pilot hosts were recruited through local networks: nine hosts from Wellington County and six hosts from Dufferin County. Most projects began in spring of 2022. Not all participants were able to complete the full field season due to poor weather (cover crops did not catch due to drought) or supply chain issues (variety of tree was not available during planting season). Where hosts were unable to complete their project, plans were made to continue or move their project to the 2023 season. Pilot projects covered the common commodities in Wellington County. Both large and small farmers found home in Experimental Acres, with projects ranging in size from 0.25 acres to 100 acres.

As farmers know their land best, projects were created alongside the host farmer to create a plan that would make sense for their farm. Projects were funded up to \$3,000, depending on the anticipated cost

of implementation. In addition to implementation costs, hosts were acknowledged with an honorarium and up to \$80.00 in soil testing. Payments for the farmers come from the Our Food Future grant budget.

| Type of Project | Number of | Funding Level | Maximum Funding | Actual Funding |
|-----------------|-----------|---------------|-----------------|----------------|
|                 | Projects  |               | Available       | Claimed        |
| Planting/Crop   | 7         | \$1,000.00    | \$7000.00       | \$2,381.18     |
| Innovation      | 5         | \$2,000.00    | \$10,000.00     | \$7,909.03     |
| Animal/Grazing  | 3         | \$3,000.00    | \$9,000.00      | \$9,000.00     |

Maximum Funding may not have been spent due to extenuating circumstances, hosts declining funding, or not spending their total budget. Funding claimed excludes honoraria and laboratory costs. Funds that were not claimed in 2022 will be used to support 2023 projects. Monitoring of many 2022 pilot sites will continue into 2023 to have a better understanding of the outcome of new practices.

#### **Outreach and Community Events**

Our Food Future co-hosted three outreach events related to soil health and regenerative agriculture in 2022. Further, Smart Cities staff were welcomed into three classrooms to speak about sustainable agriculture and invited to speak at the Royal Agricultural Winter Fair. Overall, about 300 individuals were reached through these outreach events.

#### 2023 Activities

The Experimental Acres pilot will continue in the 2023 season, expanding into Grey County through a new partnership with their Economic Development division (pending Grey County budget approval). We hope to increase the number of participating farmers to 20, with continued monitoring of current farms as needed. Applications are currently being reviewed, and projects will be selected in early February. Alongside the delivery of Experimental Acres, Smart Cities staff are participating in larger research projects to help better define the role of municipalities in delivering agricultural programmes. Further, we will create a resource to share with other municipalities looking to replicate Experimental Acres.

Soil takes time to change, but the benefits of Experimental Acres extend beyond the anticipated climate impact. During the 2022 field season, staff were welcomed at agricultural events and built valuable relationships with our agricultural community. The Experimental Acres pilot is currently funded until December 2023 when the Our Food Future project concludes.

#### **Recommendation:**

That the 2022 Experimental Acres Report be received for information.

Respectfully submitted,

Jordan Grigg Sustainability Programme Coordinator

### COUNTY OF WELLINGTON

#### COMMITTEE REPORT

| То:      | Chair and Members of the Economic Development Committee |
|----------|---|
| From:    | Jana Burns, Wellington Place Administrator              |
| Date:    | Tuesday, January 17, 2023                               |
| Subject: | Economic Development Report                             |

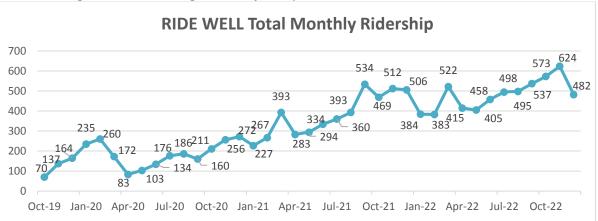

#### **RIDE WELL**

The County on-demand Ride Well rural transit service that runs Monday to Friday from 6am to 7pm, continued its ridership growth in 2022. The service is primarily funded through a provincial grant, which expires in 2025. Several meetings by staff have been held to discuss the operating review, which is currently underway, and the results of which will be presented to Committee in February.

Please see below for a yearly overview with comparisons to 2021:

|                        | 2021  | 2022  | Percentage Increase |
|------------------------|-------|-------|---------------------|
| Total Rides Completed  | 4,572 | 5,776 | 26%                 |
| Total New Riders       | 145   | 165   | 14%                 |
| Average Monthly Riders | 55    | 86    | 58%                 |
| No. of Abandoned Rides | 15    | 79    | 427%                |

The above table shows that there was growth in ridership in 2022 from the previous year. However, it also illustrates that there is a lower overall quality of service with a significant increase in rides being abandoned. This is a result of demand growing for the service while the supply of drivers remains stagnant due to recruitment and labour challenges. Since the summer of 2022, staff have been working with RideCo to recruit four full-time drivers, while also recruiting a pool of casual drivers to fill in during driver absences. As of December 2022, the service returned to four full-time drivers, but attracting casual part-time drivers remains to be a significant recruitment challenge for RideCo.

The following table shows the growth trajectory of the service since it launched in October 2019:

Ride Well had 624 and 482 rides completed in November and December respectively. November was the highest ridership to date, while December saw a drop in demand. There were 106 unique users in December, which is the highest monthly total to date. Therefore, the decline in December's ridership is attributed to repeat customers booking rides less frequently. This is reflected in the below Q4 performance table:

| Month         | Rides/<br>Bookings | Passengers<br>/Seats | Unique<br>users | New<br>users | Average<br>rides per<br>user | Average<br>Rides Per<br>Day | New<br>accounts<br>registered |
|---------------|--------------------|----------------------|-----------------|--------------|------------------------------|-----------------------------|-------------------------------|
| October 2022  | 573                | 588                  | 88              | 12           | 6.7                          | 28.7                        | 41                            |
| November 2022 | 624                | 644                  | 96              | 11           | 6.5                          | 29.3                        | 44                            |
| December 2022 | 482                | 513                  | 106             | 17           | 4.5                          | 23.0                        | 47                            |

Staff feel December's drop may be due to the holidays and inclement weather. Overall, attracting more unique users to the service indicates that demand for the service is still growing, despite less frequent trips, in December 2022.

#### Invest WELL CIP – 2022 Review

The Invest WELL Community Improvement Programme (CIP) experienced a decline in usage in 2022. Staff meet quarterly to discuss the CIP intake, potential business interest and promotion, and overall member-municipalities echo the County's 2022 experience with businesses holding off on projects due to uncertainty, supply chain issues, inflation, and lack of labour.

The following table shows the CIP usage in 2022:

|                                  | 2022         | 2021           |
|----------------------------------|--------------|----------------|
| Number of Businesses             | 6            | 10             |
| Total County Investment          | \$30,000     | \$82,500       |
| Total member-municipal           | \$26,867.25  | \$113,763.65   |
| Investments                      |              |                |
| Total Private Investment         | \$831,912.17 | \$3,945,705.93 |
| Total Return on Investment       | \$1:\$14.63  | \$1:\$20.09    |
| (ROI)                            |              |                |
| <b>Total Invest READY Grants</b> | 0            | 0              |
| Total Invest MORE Grants         | 6            | 10             |
| No. of member-municipalities     | 4            | 6              |
| that participated                |              |                |

The above table does not include the Elora South Development that was approved for a Tax Increment Equivalent Grant (TIEG) by the Economic Development Committee on May 17, 2022. This was the first official TIEG approved through the Invest WELL CIP. The total grant amount is estimated at \$931,695 in value. The assessed property value is estimated to increase from \$2 million to \$130 million upon project completion. The development by Pearle Hospitality will bring new commercial buildings, short-term accommodations, parking options, and condominiums to downtown Elora. The property tax increase from this development is estimated to increase from \$31,462 to \$1,411,591.

While some businesses are experiencing significant challenges, particularly those in the hospitality industry in our downtowns, others, such as manufacturing and agriculture, are showing signs of signs of optimism. Enquiries have been very strong year to date, from the GTA and from out of province. However, as businesses continue to cope with economic challenges, staff do expect the Invest WELL CIP to be impacted again in 2023. The CIP remains a valuable tool that allows the County to support businesses, especially in economic downturns or recessions.

#### Workforce Analysis: 2022 Figures and Trends

Our economic region includes rural Wellington and Dufferin counties, and Waterloo region. This region saw a 5% unemployment rate for most of last year, beginning at 5.3% and ending with a rate of 5.4%. While unemployment is slightly higher than the provincial rate of 4.8%, the region's participation rate fares better at 68%, compared to 64% across Ontario. The autumn also saw a further 4% entering the workforce. Compared to the rest of the province, our economic region is younger in age, and has a higher percentage of younger workers participating in the workforce. This can be a risk however, as an aging workforce and high participation rates means an even tighter labour market and greater competition than in urban areas.

In 2022, job posting numbers began declining in September. While postings typically drop over the late fall due to seasonal work, the 2022 data is much lower than previous years. Conversations with employers attribute the decrease to the slowing down of hiring in some industries, employers pausing on postings due to lack of applicants. While some employers, particularly manufacturing and agriculture, have expansion and hiring plans, many others are pausing to see how the economy fares over Q1. Most employers did express a need to try other types of approaches to talent attraction.

Staff are currently purchasing economic data and preparing content for the County Budget Book next month, as well as for the Credit Review and the division's Three-Year Plan.

#### **Talent Attraction and Newcomer Support**

Since joining the County in November, Anuradha Dam has been completing an environmental scan through in-person meetings with key stakeholders, to understand what is strengths and challenges faced in attracting and retaining talent. Conversations were held with Minto, Mapleton, Centre Wellington, Puslinch and with employers such Dana Incorporated, the University of Guelph Office of Intercultural Affairs, Wellington Health Care Alliance, Agilec Employment Services, Guelph-Wellington Business Centre, Guelph-Wellington Local Immigration Partnership, and the Workforce Planning Board.

Working at the ground level, Anuradha sees that County settlement outreach workers understand the pulse of the newcomer community. Meetings were held to brainstorm engagement ideas that will be meaningful to newcomer and immigrant audiences. A September Newcomer Welcoming Week event at the WCMA, and several Spring Community Garden projects are being initiated as an outcome of these meetings.

With an aim to develop immigrant talent in the region, Anuradha supported a funding application to develop an "Immigration Talent Hub" together with the Workforce Planning Board. The hub envisions to support immigrant jobseekers and incumbent workers to get training on their industries of

interest. The Talent Attraction programme has extended support for this initiative by way of a support letter.

Conversations reveal that transportation and housing continue to be a major barrier to employers in the rural communities. Another challenge, especially for small businesses, is that they do not have recruitment and hiring experiences which often affects their hiring process. This leads to qualified job seekers being pushed away unintentionally.

The environmental scan process also involved discussing the ethnicity of newcomers and immigrants, events that could be beneficial to newcomers and immigrants, as well as possible connections between employers and support agencies.

#### **Community Economic Development Training 2023**

The Ontario Ministry of Agriculture, Food and Rural Affairs will be hosting CED training free of charge for our region on March 6 from noon until 5pm, at the Wellington County Museum and Archives. Council members, Economic Development staff and volunteers are invited to learn about CED, the tools available, and example stories of success from around the province.

#### **Three Year Plan**

Staff have made edits to the County Economic Development Plan, based on Committee feedback. We are pleased to present the report to Committee and look forward to coordinating its implementation.

#### George Bridge Economic Development Award

At the Committee Chair's request, staff are developing an awards programme in honour of the contribution to the field of former Warden and Chair, George Bridge. This programme will be done in consolidation with the member municipalities and will be presented in draft to the Committee in March.

#### Holiday Farmers' Market Boxes

Staff worked with local farmers' markets to create a <u>Holiday Farmers' Market Box</u> featuring a selection of foods, crafts, and beverages from all 8 local markets. Boxes were available in the regular format or gift-wrapped at an additional cost. Overall, 206 boxes were delivered, with \$16,469.50 going straight to the 20 local businesses involved in this initiative. These numbers have been updated from the last Committee Report.

#### **Holiday Happenings**

This new Holiday Experience and Shop Local Campaign promoted local events, activities, and shopping locally during the holiday season. The online campaign featured holiday outings and shopping destinations by municipality amplifying shop local initiatives by BIAs and Chambers across the County. The campaign also highlighted the Taste Real Holiday Food and Gift Guide featuring unique gift ideas grown, prepared, and made in Wellington County. Holiday Happenings was predominantly promoted via social media, leveraging video content produced last year. The online campaign produced a reach of 472,715 with 678,885 Impressions resulting in 3788 clicks to the webpage.

#### Winter Campaign

Staff are currently working on a <u>Winter Adventures</u> campaign showcasing winter experiences, outings, and events. The campaign features businesses offering key winter experiences, such as horse-drawn sleigh rides, fire-side wine tastings, snow yoga, and more. A new Winter Adventures Map will feature key experiences, as well as free outdoor activities, such as municipal ice rinks, trails, and favourite hot chocolate spots to encourage residents and visitors to get out, explore Wellington County and support local businesses during the winter months.

#### **Other Activities**

- The Wellington County Economic Development Group met January 10 and approved its new Terms of Reference, attached herein.
- Upcoming in February Committee: RIDE WELL Operational Review presentation
- Upcoming in March Committee: Wellington County Tourism Strategy presentation
- Experience Wellington Newsletter sent December 2
- Taste Real Newsletter sent December 7
- Staff attended the Town of Erin wastewater project road closures business support meeting on December 6
- Christina will be a member of the Elora Fergus Tourism Steering Committee
- Staff provided input for the Planning Department's Agricultural Profile development
- 20 new partner businesses joined Taste Real in 2022
- 52 enquiries received from November 10 to January 10. Ride Well (13), Smart Cities (11), Taste Real (10), Tourism (4), Business Directory (4), Business Expansion/Support (3), Land (2), Data (2), Signage (1), Housing (1), Sponsorship (1).

#### **Recommendation:**

That the Economic Development Committee approve the Economic Development January Report. Respectfully submitted,

Jana Burns Wellington Place Administrator

#### **TERMS OF REFERENCE**

Revised: January 2023

#### **Official Name**

Wellington County Economic Development Group (WCEDG).

#### **Statement of Purpose**

The County of Wellington Municipal Economic Development Group's mandate is to collaborate, communicate, research, develop and implement economic development and to promote a business-enabling environment in Wellington County.

June 7, 2010 represented the initial WCMEDG meeting. Wellington County's momentum in economic development activities since this date can be attributed to the great working relationship of the WCMEDG members.

The Group is guided by the County Economic Development Strategy and meets to discuss economic and community priorities and projects that involve the municipalities, and agencies, where appropriate. Such projects include Business Retention and Expansion, Workforce Development, Destination Development, Investment Attraction, Community Improvement, Talent Attraction and Transportation.

Since commencement, each member has committed to respecting individual members' expertise, opinion and to contributing to an open learning environment. Members work to ensure that communication regarding economic development activity in the County is provided to all municipalities in the County.

Recommendations and minutes are shared with County Council via the County's Economic Development Committee.

#### Occurrence

Group meetings are held the first Tuesday of each month, with winter (December to March) meetings taking place virtually. No meetings will take place in February (EDCO Conference) nor July and August. In person meetings are held at the Wellington-Waterloo Community Futures Offices, 294 Mill Street East in Elora. In the spirit of the Group, one in-person meeting per year will be hosted by a different member of the Group. Membership is comprised of a Chair, one Secretary and the twenty-four (25) voting members as listed below.

#### Term of Membership

New members will be approved by the Group in the form of a motion upon joining.

#### Membership – Municipal Economic Development Group

| Chair          | County Director of Museum, Archives and Economic Development       | Jana Burns   |
|----------------|--|--|
| Municipal      | Township of Centre Wellington, Manager of Economic Development     | George Borovilos   |
| Representation | Town of Erin, Economic Development Officer                         | Robyn Mulder   |
|                | Guelph Eramosa Township, CAO                                       | lan Roger  |
|                | Township of Mapleton, Economic Development Manager                 | Aly Hill   |
|                | Town of Minto, Director of Economic and Community Development      | Belinda Wick-Graham  |
|                | Township of Puslinch, Chief Administrative Officer                 | Glenn Schwendinger   |
|                | Township of Wellington North, Economic Development Officer         | Dale Small   |
|                | Township of Centre Wellington, Tourism and Destination Coordinator | John Corrolo   |
|                | Township of Centre Wellington, Manager of Community Development    | Kristen Drexler  |
|                | County of Wellington, Economic Development Officers                | Christina Mann, James<br>Vaclavek, Dominique<br>Charbonneau                      |
|                | Smart Cities Project Manager                                       | Justine Dainard  |
|                | County of Wellington, Communications Manager                       | Andrea Ravensdale  |
|                | County of Wellington, Talent Attraction Lead                       | Anuradha Dam   |
| Secretary      | Wellington-Waterloo Community Futures                              | Jane Shaw  |
| Supporting     | Ontario Ministry of Agriculture, Food and Rural Affairs            | Anuraj Gill  |
| Agencies       | Ministry of Economic Development, Job Creation and Trade           | Laura Gibson (Regional<br>Manager), Ben Shantz<br>(Regional Business<br>Advisor) |
|                | Saugeen Economic Development Corporation                           | Rose Austin  |
|                | Guelph Wellington Business Enterprise Centre                       | Kristel Manes  |
|                | Workforce Planning Board of Waterloo Wellington Dufferin           | Charlene Hofbauer  |
|                | Innovation Guelph  | Linda Horowitz   |
|                | Guelph Wellington Local Immigration Partnership                    | Leen Al-Habash   |
|                | Wellington Federation of Agriculture                               | Janet Harrop   |

#### Confidentiality

Documents circulated by members of the Group may be shared externally unless stated as confidential. Members are required to respect confidentiality of specific topics discussed at the meeting as requested by other members or guest speakers.

Disclosure of confidential matters arising from the Group meetings to outside parties or individuals justifies consideration for Group membership removal.

#### Governance

Quorum for the Group will be considered one-half plus one member. In all meetings of the Group at which a quorum exists, motions properly before the meeting shall be adopted on a simple majority of votes cast by members (excluding the Chair).

Appointment of the Municipal Group Meeting Chair will be bi-annual, at the January regular meeting.

#### Communications

Agendas and minutes of meetings will be prepared by administrative support from the Waterloo Wellington Community Futures and will be distributed to the Group via email. Any items to be added to the agenda are to be added up to three business days prior to the meeting.

Additional copies of the minutes will be forwarded to the County Clerk to be included as an agenda item at the County's Economic Development Committee meeting and to all member municipal Clerks to distribute to Council Members for their information.

A Roundtable discussion will be held at the end of each Group meeting.

## COUNTY OF WELLINGTON ECONOMIC DEVELOPMENT ACTION PLAN 2023 - 2026

| 1. | INTE  | RODUCTION                                     | 3               |
|----|-------|---|-----------------|
|    | 1.1.  | Thank you                                     | 4               |
|    | 1.2.  | The Team                                      | 5               |
|    | 1.3.  | Local Economy                                 | 9               |
| 2. | MEN   | MBER MUNICIPALITY COMMUNITY PROFILES          | . 12            |

## 1. INTRODUCTION

The County Economic Development team is pleased to present its plan of activities for the next three years. This document, prepared by staff, communicates the areas of focus to help businesses and support the communities in Wellington County. In addition to internal brainstorming, consultations were held with member municipalities, business support agencies, and non-profit partners, those individuals with whom staff are proud to serve the County. A final in-person workshop with the Wellington County Economic Development Group ensured the proposed County activities align with locally planned efforts and individual community priorities.

It is November 2022, the hopeful end of the Covid-19 pandemic and time for revisiting the basics of economic development. The resiliency of the local economy has been thoroughly tested. Supply chains required restructuring, those that could digitized or tested new ideas, and many economic relationships have been reformed. The County benefitted from a strong rural community culture, and many actions took place to confirm that local support. Council was responsive with the establishment of the County Keep Well fund, \$1M in pandemic relief loans provided to businesses across Wellington County. The business directory continued to be a crucial resource for supporting the local economy. RIDE WELL provided essential transportation for Social Services when their Wellington Transportation programme was suspended. The Smart Cities Office also provided emergency food and business support through immediate programming. The International Economic Development Corporation just this month recognized the County with an award for its Taste Real Market Boxes, an innovative collaboration with the eight local farmers' markets in getting product to customers at a time when customers were not able to shop in person.

Today, a shortfall of immigration, a low vacancy rate for housing, and a disconnect between employer and employee expectations, presents opportunities for intervention. The three-year Economic Development Action Plan focuses on addressing local challenges and being proactive in preparing the local economy to be more resilient. Staff have proposed activities that are intentionally creative and actionable. The areas of focus are as follows:

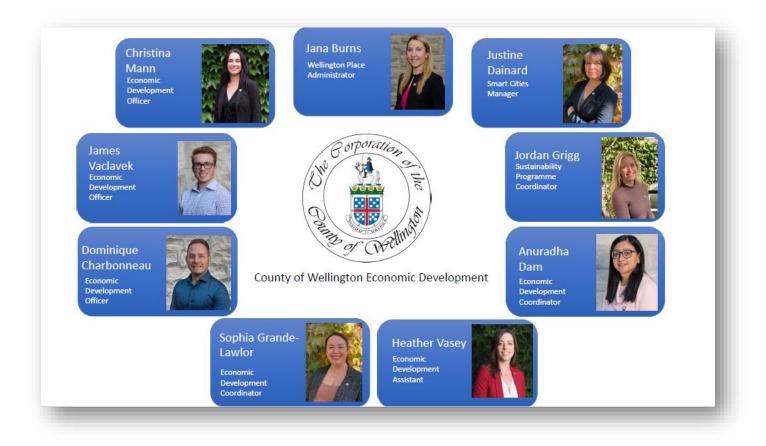

- 1. Business Attraction, Retention, and Expansion
- 2. Community Improvement Programme
- 3. Talent Attraction and Newcomer Support
- 4. Tourism
- 5. Shop Local Support
- 6. Workforce Development
- 7. Attainable Housing
- 8. Our Food Future
- 9. Broadband Internet and Connectivity
- 10. Rural Transportation

## 1.1. THANK YOU

In addition to thanking Warden Lennox and Councillors Duncan, Ballantyne, Breen and Bulmer for their feedback and support, County Economic Development staff are grateful for the contributions of the below individuals. Their time provided to a survey, a workshop, and consultations resulted in this document being one which focuses on the core concepts of economic development, and an environment which is truly collaborative.

| Township of Centre Wellington, Manager of Economic Development  | George Borovilos    |
|---|---------------------|
| Town of Erin, Economic Development Officer                      | Robyn Mulder        |
| Guelph Eramosa Township, Chief Administrative Officer           | lan Roger           |

| Wellington Federation of Agriculture                            | Janet Harrop        |
| County of Wellington, Director of Planning                      | Aldo Salis          |

## 1.2. THE TEAM

The County Economic Development division is composed of three economic development officers, a federally funded Talent Attraction position, a Coordinator, and an Administrative Assistant. Smart Cities funded staff consist of a Smart Cities Project Manager and a Sustainability Coordinator. The Manager (currently vacant) reports to the County Council via the Economic Development Committee of Council. Economic Development is within the Wellington County Museum and Archives department. Together, the division provides business support services, manages countywide programmes, conducts economic planning, and runs events in support of and in conjunction with member municipalities.

The Economic Development division leads and participates in activities that grow and develop Wellington County. The County differentiates itself from member municipal economic development efforts as the County perspective is regional and beyond.

- 1. The County conducts work beyond municipal borders to align goals (County Community Improvement Programme business incentives).
- 2. The division elevates the work undertaken in the individual municipalities (international investment attraction).
- 3. Staff lead larger countywide initiatives to leverage larger opportunities (broadband buildout, Taste Real).
- 4. County economic development will fill the gap where member municipalities do not have the funds to participate in certain initiatives, do not have the staff or expertise, or where the projects are better suited at a regional level.

In 2012, the Wellington Municipal Economic Development Group (WMEDG) was formed, consisting of representation from: Ministry of Agricultural Food and Rural Affairs, Wellington Waterloo Community Futures, Innovation Guelph, Business Centre Guelph Wellington, Saugeen Economic Development Corporation, Guelph Wellington Local Immigration Partnership, Waterloo Wellington Dufferin Workforce Planning Board, Wellington Federation of Agriculture, and an Economic Development representative from each of the member municipalities. The group meets in person once a month and has proven to be successful in incubating new programmes, sharing information, and collaborating on economic development initiatives.

An overview of the WMEDG partners and their areas of focus are as follows:

| Organization   | Primary Contact                               | Organizational Role  | Organizational Focus   |
|--|---|--|--|
| Wellington<br>Waterloo<br>Community<br>Futures<br>(WWCF)   | Rick Whittaker<br>General<br>Manager          | WWCF is a not-for-profit<br>organization supported by the<br>Federal Economic Development<br>Agency for Southern Ontario<br>(FedDev Ontario). WWCF offers<br>support, financing, and training<br>for rural businesses in Wellington<br>County and the Region of<br>Waterloo.   | WWCF is focused on<br>continuing to provide business<br>loans, business coaching, and<br>expanding community<br>economic development<br>partnerships.  |
| Saugeen Econonic Development Corporation<br>ACommunity Fitures Development Corporation<br>Development<br>Corporation<br>(SEDC)                 | Rose Austin<br>General<br>Manager             | Promotes sustainable economic<br>and social development<br>throughout Wellington North,<br>Minto, Mapleton, and<br>surrounding communities in<br>adjacent Counties to collaborate,<br>positively impact economic<br>growth, support youth retention<br>and development, growth and<br>retention of local business; and<br>integrate efforts to leverage<br>newcomer attraction to the<br>region. | SEDC is focused on supporting<br>local businesses and<br>entrepreneurs through loans,<br>grants, and workshops,<br>focusing on advancing women<br>economically, attainable<br>housing, and workforce<br>development. |
| Workforce Planning Board<br>of Waterioo Wellington Dufferin<br>Workforce<br>Planning Board -<br>Waterloo,<br>Wellington,<br>Dufferin<br>(WFPB) | Charlene<br>Hofbauer<br>Executive<br>Director | Leads local workforce<br>development by identifying local<br>labour market needs, trends, and<br>priorities. Works with<br>communities and stakeholders to<br>develop action plans to address<br>identified issues and needs.  | WFPB is focused on awareness<br>and support for in-demand<br>careers, supporting<br>employers' recruitment and<br>retention practices, and local<br>labor market planning.   |

| Guelph Wellington<br>Local Immigration<br>Partnership<br>(GWLIP)  | Leen – Al-Habash<br>Project Manager | Mobilizes community<br>stakeholders in support and<br>research opportunities to<br>improve Guelph and Wellington<br>County immigrant integration.<br>Recent support and research<br>activities have included<br>identifying immigrant housing<br>barriers, refugee settlement, and<br>community neighborhood<br>snapshots. | GWLIP is focused on raising<br>awareness and support for<br>making communities more<br>welcoming to newcomers. In<br>addition, there will be a<br>further focus on the barriers<br>newcomers are facing in the<br>community and elevate their<br>voices in public processes.   |
|---|-------------------------------------|--|--|
| Innovation Guelph<br>(IG)   | Alison<br>Crumblehulme<br>CEO       | Provides mentorship and<br>business support programmes<br>and services geared to help<br>innovative enterprises to launch,<br>grow, and thrive in Guelph and<br>Wellington County.   | IG is focused a focus on<br>providing support and<br>programming for startups and<br>small/medium-sized<br>enterprises. Clean Tech and<br>Green Energy enterprises will<br>be a primary lens of focus. In<br>addition, innovation Guelph<br>would like to increase the<br>mentorship and business<br>support programmes and<br>services to deserving equity<br>groups. |
| Business Centre<br>Guelph Wellington<br>(BCGW)                    | Kristel Manes                       | It serves as an entry point for<br>Guelph and Wellington County<br>entrepreneurs to help individuals<br>get into entrepreneurship and<br>support existing entrepreneurs<br>with consultative advice to grow<br>and expand their small<br>businesses in Guelph and<br>Wellington County.                                    | BCGW is focused on<br>championing the innovation of<br>future-focused business<br>models, such as cooperatives,<br>social enterprises, and circular<br>economy.  |
| WERE Restored<br>Wellington<br>Federation of<br>Agriculture (WFA) | Janet Harrop<br>President           | Wellington Federation of<br>Agriculture works for farmers'<br>economic, environmental, and<br>social well-being. The WFA is a<br>local county affiliate of the<br>Ontario Federation of Agriculture<br>and will liaise with the OFA to all<br>levels of government,<br>commodity, and rural groups to<br>meet these needs. | WFA is focused on Housing for<br>the next generation of farmers<br>and agricultural workers;<br>increased value-added<br>processing; identifying missing<br>inputs; Advocacy for<br>Agricultural Land Sustainability   |

| Ontario Ministry of<br>Agriculture, Food<br>and Rural Affairs<br>(OMAFRA)     | Rian Omollo<br>Senior Program<br>Analyst | OMAFRA is the Ontario Ministry<br>that works to build the<br>agriculture, food, and rural<br>sectors of the Province. OMAFRA<br>also has the responsibility of<br>providing regulatory oversight in<br>those sectors to ensure<br>compliance.   | OMAFRA works to strengthen<br>the agricultural, food, and<br>rural sectors of Ontario by<br>investing in innovative<br>technologies, reviewing policy,<br>undertaking investment<br>attraction, and providing data<br>collection and analysis<br>support.   |
|---|--|---|---|
| Ministry of<br>Economic<br>Development, Job<br>Creation and Trade<br>(MEDJCT) | Laura Gibson<br>Regional<br>Manager      | MEDJCT is the Ontario Ministry<br>that works to grow the local<br>economy be supporting job<br>creation, attracting investment,<br>and developing market<br>opportunities. MEDJCT is active<br>internationally and manages a<br>large network of foreign trade,<br>and investment offices in key<br>markets around the world. | MEDJCT supports job creation,<br>innovation, and trade for all<br>Ontarians. They have a range<br>of programmes and services<br>available to help business<br>innovate and compete in<br>today's global economy.<br>MEDJCT also continues to<br>build strategic partnerships<br>and work to promote and<br>bolster Ontario's economic<br>competitive advantage. |

## 1.3. LOCAL ECONOMY

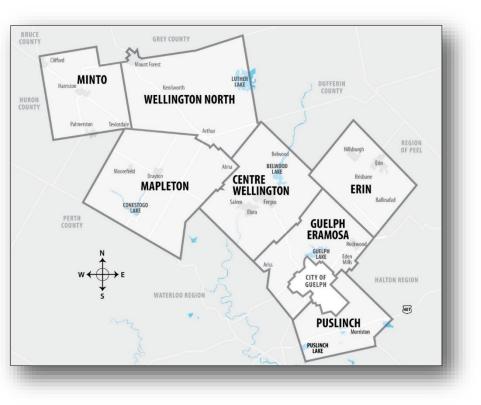

Wellington County is in Southwestern Ontario, just over one hundred kilometres west of Toronto. Wellington County is the upper-tier municipality of seven-member municipalities. The County expects its population to grow to 160,000 by 2051, a 60,000 person increase from 2020.

The County is close to major highway corridors such as Highway 6, 7, 10 and 401; and other significant air, freight, and deepsea ports. This central location allows for ground access to 200 million within a 12-hour drive and the quick movement of goods to various international markets. In addition, the County has access to a welltrained workforce due to its proximity to multiple post-secondary institutions nearby, such as the University of Guelph, University of Waterloo, Wilfrid Laurier University, and Conestoga College.

The County of Wellington has a vibrant economy, with manufacturing, agriculture, health care and creative professional sectors being primary focus sectors. Of the jobs in Wellington County, the manufacturing sector employs 18%, construction employs 13%, and

health care and social assistance employ 8.2%.

The joint strength economically of Wellington County and its member municipalities is agriculture. A majority of the land in Wellington County' is prime agricultural, making it some of the most fertile land in the province. As a sector, agriculture is a strong driver of economic activity, further amplified by area institutions like the University of Guelph, which has a rich history in agricultural research, education, and innovation. Now more than ever, it is essential to focus efforts on protecting this economic asset for future generations. To preserve the value of this economic asset, we partnered with the City of Guelph to create the Our Food Future programme, emphasizing the benefits of circular economy practices.

### **GROWTH AND ENGAGEMENT**

# 2. MEMBER MUNICIPALITY COMMUNITY PROFILES

Wellington County consists of seven member municipalities stretching across a diverse geography, varied economic strengths, demographic, and cultural uniqueness.

## 2.1. TOWNSHIP OF CENTRE WELLINGTON

Population: 31,093

Projected Population: 58,900 (2051)

Average Age: 43

Geography: Land Area is 407.54 kilometres squared

Settlement Areas: Fergus, Elora/Salem

Business Count: 1,426

Average Household Income: \$115,287

Median Household Income: \$101,000

Labour Force Participation: 60%

Labour Force: 18,651

Local Jobs: To be added in for January 2023

**Top Sectors of Employment:** To be added in for January 2023

Growth Sectors: To be added in for January 2023

GHG emissions: Estimated at 9.59 tonnes per capita

Website:

https://www.centrewellington.ca/en/index.aspx

Centre Wellington is the largest township in Wellington County and offers both a small town and a rural lifestyle. Centre Wellington is an established tourism destination and the hub for many tourists to the County of Wellington. The charming heritage towns of <u>Fergus and Elora</u> offer a thriving cultural scene with many locally-owned one-of-a-kind shops and specialty stores. Centre Wellington is anchored by the natural beauty of the Elora Gorge, which offers picturesque walking trails, ziplining, rafting, and tubing opportunities.

Centre Wellington is well positioned for the anticipated population growth in the future and has a diversified economy with strengths in hospitality and tourism, arts and culture, manufacturing, and agriculture. Centre Wellington is developing a new 58-acre business park with anticipated sales occurring in 2023. Centre Wellington's industry areas of interest are Agriculture/Agri-Food, Creative Economy, Health Care, and Manufacturing. In addition, Centre Wellington is home to Jefferson Elora, one of the County's largest employers.

## 2.2. TOWN OF ERIN

| Population: 11,981   |                           |
|--|---------------------------|
| Projected Population: 26,300 (2051)                        |                           |
| Average Age: 43  |                           |
| Geography: Land area is 297.75 kilometres squared          |                           |
| Settlement Areas: Erin, Hillsburgh                         |                           |
| Business Count: 519  |                           |
| Average Household Income: \$152,724                        |                           |
| Median Household Income: \$127,000                         |                           |
| Labour Force Participation: 66%                            | Hillsburgh                |
| Labour Force: 7,865  | Erin                      |
| Local Jobs: To be added in for January 2023                | Brisbane                  |
| Top Sectors of Employment: To be added in for January 2023 | <b>ERIN</b><br>Ballinafad |
| Growth Sectors: To be added in for January 2023            |                           |
| GHG emissions: Estimated at 7.60 tonnes per capita         |                           |
| Website: https://www.erip.ca/                              |                           |

Website: <u>https://www.erin.ca/</u>

The picturesque Town of <u>Erin</u> is a rural community lush with rolling countryside, meandering rivers, small settlement areas, and quaint village settings. Its bustling downtown, Erin village, is a medley of adorable shops and lovingly preserved buildings. Nearby Hillsburgh offers a relaxing and picturesque pond adjacent to the Hillsburgh Library, also serving as a connection point to the 47km Elora Cataract Trailway. Erin is known for its equine and agri-tourism culture, while also accompanying and bordering the Town of Caledon and Halton Hills. Erin acts as an active member of Headwaters and <u>Central Counties</u> Tourism, with visitors having the opportunity to watch various equine events throughout the year, create wonderful memories on family farms, or attend the well-established Erin Fall Fair.

The Town of Erin has access to many population growth areas and areas of significant economic activity in the Province of Ontario, such as: Toronto, Peel Region, Halton Region, Guelph, Waterloo Region, and Orangeville. Erin is in close proximity to significant land transportation routes (Highway 10, Highway 124, Highway 410, Highway 401, Highway 407, and Pearson International Airport), allowing for access to a large domestic and international customer base. A new Wastewater Treatment plant is currently under construction, its supply of undeveloped industrial land is primed for business attraction in the near term. The Town of Erin's focus areas from a business attraction and retention perspective include Agri-Food and Agriculture related activities, Tourism, Advanced Manufacturing, Environmental and Clean Technologies, and Professional Services.

From a local business perspective, Erin's value proposition for local business investment is strong, its population is expected to double by 2051, allowing its local business to cater to a growing customer base.

### 2.3. GUELPH ERAMOSA TOWNSHIP

Population: 13,904

Projected Population: 14,700 (2051)

Average Age: 42

Geography: Land area is 291.73 kilometres squared

Settlement Areas: Rockwood

Business Count: 463

Average Household Income: \$142,964

Median Household Income: \$129,000

**Labour Force Participation:** 61%

Labour Force: 8,466

**Local Jobs:** To be added in for January 2023

**Top Sectors of Employment:** To be added in for January 2023

Growth Sectors: To be added in for January 2023

GHG emissions: Estimated at 8.31 tonnes per capita

Website: https://www.get.on.ca/

<u>Guelph/Eramosa</u> is a growing and vibrant rural community mixed with stunning landscapes and natural wonders. <u>The Rockwood Conservation Area</u> has served as a popular filming destination offering its mesmerizing scenery and formations. Boasting over eleven municipal parks and over 81 kilometers of trails. Opportunities to explore <u>The Kissing Bridge</u>, the <u>Ignatius Jesuit Centre</u> farm and walking trails, or have a beach day at either Guelph Lake or Rockwood. Guelph Eramosa is home to many well-known festivals and cultural events, such as the <u>Hillside Festival</u> and <u>Eden Mills Arts Festival</u>.

Guelph Eramosa Township is centrally located and shares a border with growth and innovation areas like the City of Guelph, Waterloo Region, and Halton Region. In addition, Guelph Eramosa has close access to key transportation routes such as Highway 401 and Highway 7 and three international airports (Toronto Pearson, Waterloo International, and Hamilton International). Guelph/Eramosa has many assets to continue as a vital economic contributor to Wellington County; with an ample supply of un-serviced and developed employment lands, steps must be taken to further their development. Additionally, Guelph/Eramosa has a strong agriculture and agri-food sector, home to a large amount of prime agricultural land.

## 2.4. TOWNSHIP OF MAPLETON

Population: 10,829

Projected Population: 14,400 (2051)

Average Age: 35

Geography: Land Area is 534.87 kilometres squared

Settlement Areas: Moorefield, Drayton

Business Count: 317

Average Household Income: \$112,063

Median Household Income: \$109,000

Labour Force Participation: 58%

Labour Force: 6,267

Local Jobs: To be added in for January 2023

**Top Sectors of Employment:** To be added in for January 2023

Growth Sectors: To be added in for January 2023

GHG emissions: Estimated at 24.33 tonnes per capita

Website: https://mapleton.ca/

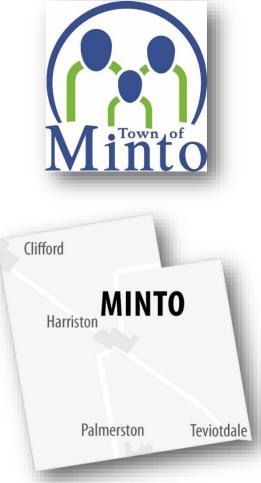

The Township of Mapleton is a community rich in heritage and culture. Mapleton has a strong arts and culture scene anchored by the Drayton Festival Theatre, among one of Canada's most successful professional theatres. Mapleton is an agriculture and agri-food powerhouse within Wellington County; the Mapleton Farmers' Market offers an opportunity to sample some of the locally grown and produced products.

Mapleton is home to some of Wellington County's largest agricultural producers and growers, thanks to Mapleton's abundant amount of prime agricultural land in the County. From a growth perspective, Mapleton has been constrained by the lack of servicing capacity for many years but is working through plans to increase its servicing to allow for the expansion of their employment lands and residential development within its urban boundary. Economically, Mapleton is focused on developing and supporting: Agriculture, Tourism, Health Care, and Creative Economy sectors. Additionally, there is a focus on local entrepreneurship, arts and culture, local business promotion, and local food opportunities.

### 2.5. TOWN OF MINTO

| Population: 9,094<br>Projected Population: 15,200 (2051)   | 6        |
|--|----------|
| Average Age: 42  |          |
| Geography: Land Area is 300.19 square kilometres           |          |
| Settlement Areas: Palmerston, Harriston, Clifford          |          |
| Business Count: 385  |          |
| Average Household Income: \$90,383                         |          |
| Median Household Income: \$84,000                          | Clifford |
| Labour Force Participation: 57%                            |          |
| Labour Force: 5,207  | Harris   |
| Local Jobs: To be added in for January 2023                | Tiarris  |
| Top Sectors of Employment: To be added in for January 2023 |          |
| Growth Sectors: To be added in for January 2023            |          |
| GHG emissions: Estimated at 20.74 tonnes per capita        |          |
| Website: https://town.minto.on.ca/                         |          |

Visiting Minto's three revitalized downtowns boasts an unexpectedly diverse array of entertainment, shopping, history, and food options – from the <u>Grey-Wellington Theatre Guild</u> and the <u>Norgan Theatre</u>, to antique shops and everyday essentials, <u>The Palmerston Railway Heritage Museum</u>, renovated libraries, and independent eateries. Minto offers many fresh local food options, including the one-of-a-kind <u>Farmers' Market in Palmerston</u>, or find handmade goods at the <u>Makers' Markets</u> located throughout Minto.

The Town of Minto is located on the north-western boundary of Wellington County, well-situated mid-way between the major centers of southern Ontario and popular recreational areas along the eastern shore of Lake Huron and south Georgian Bay. It is only a 1 to 1 ½ hour drive from the municipality to Canada's "Golden Horseshoe" industrial heartland, like Toronto and Hamilton, and under an hour to Kitchener-Waterloo and Guelph. The City of Owen Sound offers Great Lakes port and shipping facilities, as does the Town of Goderich, situated approximately one hundred kilometers to the southwest. Minto has a strong manufacturing appeal anchored by one of the County's largest employers, TG Minto. Minto is primed for population growth of ~60% between 2020 and 2051. Minto is focused on continuing to invest and innovate in rural community development and creating a strong sense of place.

## 2.6. TOWNSHIP OF PUSLINCH

Population: 7,944

Projected Population: 10,000 (2051)

Average Age: 46

Geography: Land Area is 214.62 kilometres squared

Settlement Areas: Aberfoyle, Morriston

Business Count: 228

Average Household Income: \$198,987

Median Household Income: \$133,000

Labour Force Participation: 59%

Labour Force: 4,659

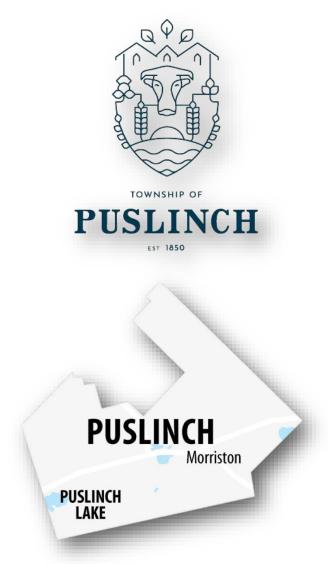

Local Jobs: To be added in for January 2023

**Top Sectors of Employment:** To be added in for January 2023

Growth Sectors: To be added in for January 2023

GHG emissions: Estimated at 10.09 tonnes per capita

Website: <u>https://puslinch.ca/</u>

<u>Puslinch</u> has the laidback feel of country living while still having convenient access to urban amenities near major cities. Just minutes from Guelph, Puslinch offers immense recreational facilities at the <u>Puslinch Optimist</u> <u>Center</u> and activities and events year-round, including the regionally recognized <u>Aberfoyle Antique Market</u>. The <u>Aberfoyle Farmers Market</u> provides opportunities to explore and purchase many locally made and sourced products. The emerald of Puslinch lies in its natural features and various trails and forest tracts. These contribute to a high quality of life that contribute to investment attraction and growth.

With the continued growth of warehousing and logistics across the Greater Toronto Area, Puslinch's location to major transportation and goods movement corridors, including Highway 401, Highway 6, CP Mainline, CN Mainline, Waterloo International Airport, Pearson International Airport, Hamilton International Airport, and the Port of Hamilton. Puslinch is proximal to notable innovation and growth centres like Waterloo Region, Hamilton, and the broader Greater Toronto Area. Puslinch's access to well-educated talent and residents with occupations and educations from nearby institutions in high paying and in demand industries in the nearby centres allows Puslinch to enjoy a higher level of resident financial prosperity than other parts of the County. Ongoing economic focuses within Puslinch include: growing its industrial base and diversifying its agricultural industries.

## 2.7. TOWNSHIP OF WELLINGTON NORTH

Population: 12,431 Projected Population: 20,500 (2051) Average Age: 42

Geography: Land Area is 526.31 square kilometres

Settlement Areas: Mount Forest, Arthur

Business Count: 500

Average Household Income: \$87,418

Median Household Income: \$78,000

Labour Force Participation: 57%

Labour Force: 7,079

Local Jobs: To be added in for January 2023

**Top Sectors of Employment:** To be added in for January 2023

Growth Sectors: To be added in for January 2023

GHG emissions: Estimated at 16.11 tonnes per capita

Website: https://www.wellington-north.com/

Wellington North encompasses endless walking and cycling

trails, unique stores, gift shops, and fashion destinations that dot this unique destination on the mountain top. Take a stroll through Arthur, Canada's Most Patriotic Village and check out the many <u>murals</u> that are located throughout the town, or visit and experience why Mount Forest proudly calls itself, High, Healthy and Happy. Find fresh produce and goods at the <u>Farmers' Market</u>, and see for yourself why Wellington North is an agricultural hub. Hosting one of the top 100 festivals in Ontario, watch fireworks fly at the <u>Fireworks Festival</u>, learn about the historic landscape at <u>Mount Forest Museum and Archives</u>, and <u>Lynes Blacksmith Shop</u>, or catch a show at the <u>Grey</u> <u>Wellington Theatre Guild</u>, and simply explore all the treasures <u>Wellington North</u> has to offer.

Wellington North is a well-diversified and ever-evolving Township in Wellington County. Wellington North boasts a strong industrial and manufacturing employment base, coupled with a strong agriculture and agri-food business sector. Wellington North's sectors of focus include Manufacturing, Construction, Agriculture/Forestry, Retail, and Health Care.

The Township is home to one of the County's largest employers, Musashi Auto Parts Inc, an anchor business in Wellington County, which supports Ontario's robust automobile and auto parts sector. Economically, the Township is focused on supporting pending population growth through investments in local wastewater capacity and the streetscapes of its largest urban centers Arthur and Mount Forest. The Township is anticipating 58% population growth between 2020 and 2051.

# 3. MEMBER MUNICIPALITIES ECONOMIC DEVELOPMENT

In preparation of this report, staff provided a questionnaire to member municipal economic development representatives, seeking information on economic development actions, barriers, and focus for the next three years. The results highlighted the significant geographical, cultural, and economical differences between communities. For simplicity, staff have grouped the municipalities and the general themes observed in the economic development priorities, challenges, and opportunities:

#### Northern Wellington County (Mapleton, Minto, Wellington North):

The northern municipalities rely more heavily on agriculture, retail, and manufacturing sector employment. Historically, this region has experienced more challenges in workforce attraction than other areas of the County. Recently, the issue of housing affordability has grown in this region, primarily due to residents being unable to compete with Greater Toronto Area (GTA) resident in-migration. The cost of living in the north for an average earning resident exceeds any income increases. As a result, local employers have difficulty retaining and attracting staff. Rising fuel costs and limited alternative rural transportation options has compounded these pressures on local employer's ability to attract and retain out-of-market staff.

#### Areas of focus:

- Developing more welcoming and inclusive communities
- Downtown beautifications/improvements
- Diversity and inclusion plans
- Attainable housing

#### **Centre Wellington:**

Central Wellington is poised to receive the most growth over the near term. Centre Wellington is a strong hub of economic activity in the County, particularly manufacturing, tourism, the arts, and professional services. With two of the County's most populated urban centers (Elora and Fergus) and its visitor appeal, the area is experiencing growth-related pressures, such as inadequate parking, limited rental unit supply, and high housing costs. Rising fuel costs are putting further pressure on local employers' ability to attract and retain out-of-market staff from Guelph, further compounded by wage stagnation and limited rural transportation options.

#### Areas of focus:

- Diversifying its tax base through investments into servicing and selling municipally owned employment lands.
- Raising Centre Wellington's profile as a prospective business location; through marketing, and updated Community Profiles.
- Contributing to the creation of more attainable housing.

#### Southern Wellington (Erin, Guelph/Eramosa, Puslinch):

These communities have the unique advantage of proximity to the GTA's large urban centers, major transportation corridors, Highway 6, 7, 10, 401 and three international airports (Toronto, Hamilton, and Waterloo). In addition, low vacancy, and high prices in the GTA's warehousing and logistics real estate market have led to large warehouse and logistic centre investments due to their affordability and strong location from a goods movement perspective.

The area is home to higher-earning commuters who work in the nearby GTA and Waterloo Region. The median household income figure highlights similar affordability challenges that the rest of the County faces. Lack of diverse housing options and reliable transportation options to the regions, compounds employers' challenge in obtaining workers.

#### Areas of focus:

- Addressing infrastructure capacity limitations by studying and/or implementing increased water and wastewater capacity to unlock additional residential and employment land.
- Make use of employment lands within the context of existing municipal servicing capacities to access commercial and industrial land effectively.
- Study and assess the economic development impacts of the highway 6 and 401 Morriston Bypass Expansion project, which may have implications on employment land, downtown development, industrial land access, and urban-to-rural connections.
- Increasing contact with the business community and encouraging greater community collaboration. Encourage actions through organizations like the Chamber of Commerce and/or local BIA's.

# 4. STRATEGIC PRIORITIES AND ACTIONS

# 4.1. BUSINESS ATTRACTION, RETENTION, AND EXPANSION

Business Attraction, Retention and Expansion (BRE) aims to support local businesses so they can move to, grow, create jobs, and stay in Wellington County. BRE is a core economic development activity that builds competitiveness for the region by fostering a strong business ecosystem.

Wellington County Economic Development first undertook BRE function in 2014 by conducting business surveys to understand sectoral (i.e. agriculture, manufacturing, healthcare, and the creative economy) challenges in Wellington County. The County has since held <u>periodic</u> <u>business surveys</u> to understand what the business community needs and how to support them accordingly. For example, in 2020 the County surveyed 435 businesses to gather feedback on how COVID-19 impacted them, and what support they needed from the government moving forward. The results were shared with local municipalities and various

actions were taken based on the feedback, such as shop local campaigns and providing regular updates to businesses on funding and resources available to them.

In 2016, the County expanded its BRE activity by creating a fund that each of the seven municipalities could access yearly to implement their own business support activities. Each municipality can request up to \$25,000 in funding from the County following an application and internal review process. This has led to several hyperlocal BRE projects, such as local community improvement programmes, Launchlt Minto, and the Centre Wellington Tourism Shuttle Bus.

There has been interest from the member-municipalities to further collaborate with the County on BRE efforts. One staff member (James) will be dedicated to providing expanded direct business support over the next 3 years. Economists have predicted several challenges for businesses including labour shortages, inflation, supply chain disruptions, and an economic recession. BRE will be crucial to supporting businesses through these challenges. The following strategic priorities are designed to help the County maintain a strong, competitive business ecosystem through economic challenges.

| Strategic Priority  | Description   |
|---------------------|---|
| BRE Fund            | The BRE Fund will continue to be offered to local municipalities. Each of the 7 local municipalities have accessed the fund to either continue existing programmes, or try new ones that directly support businesses in their communities. An overview and metrics are presented in a separate report to January Committee.             |
| Boots on the Ground | A core BRE activity is regularly meeting, communicating, and networking with  |
| support             | businesses and large employers in each of the communities and helping them connect<br>to resources that are available to them. As a regional municipality, the County will<br>leverage its network of partner organizations, governments, non-profits, and private<br>sector stakeholders to ensure businesses have a point of contact. |

| Celebrate and promote    | Wellington County businesses have shown resiliency by innovating, adapting, or           |  |
|--------------------------|--|--|
| successes                | pivoting their products and services. There is significant value in celebrating business |  |
|                          | accomplishments and promoting them to the community. This encourages buying              |  |
|                          | local, which strengthens economic supply chain resiliency, creates local job             |  |
|                          | opportunities, and builds economic, social, and environmental sustainability.            |  |
| Collaborate with partner | Wellington County has a strong network of strategic partners. These partners should      |  |
| organizations to support | be leveraged to find new innovative ways to support the business community. This         |  |
| small businesses         | includes hosting events, cross-promoting webinars, and other sessional resources,        |  |
|                          | and providing mentorship opportunities.  |  |

| Strategic Priority 1 – BRE Fund               |  |      |            |
|---|--|------|------------|
| Action  | Description  | Role | Commencing |
| Liaison with<br>Municipalities                | The County will continue to work closely with its local<br>municipalities to ensure they are finding value in<br>accessing the BRE fund, and that they have quality<br>projects in the works for the County to support.  | Lead | 2023       |
| Review Return on<br>Investment (ROI) annually | The County provides an annual look at the return on<br>investment from BRE Fund projects. This will be a<br>continued practice as a means to measure success.<br>Member municipalities benefit greatly from this<br>Fund, where significant projects would not have<br>been possible without County support. | Lead | 2023       |

| Strategic Priority 2 – Boots                               | Strategic Priority 2 – Boots On the Ground Business Support   |      |            |  |
|--|---|------|------------|--|
| Action   | Description   | Role | Commencing |  |
| Direct Business<br>Consultation                            | Consulting with businesses about their immediate<br>and long-term needs will enable the County to be<br>strategic, anticipating the supports needed. Enough<br>cannot be said about having an individual that can be<br>contacted for business support at the County level.<br>The County will look at accompanying local EDOs and<br>municipal representatives on local tours/visits of<br>businesses within the County.   |      |            |  |
|  | We have recognized a need for a stronger role in<br>providing accessible business support services to the<br>County businesses in collaboration with the<br>municipalities. There is also a need to reconnect with<br>businesses that were surveyed in 2020 that were<br>looking for assistance. The County can also leverage<br>its existing network to help connect large employers<br>when they are undertaking new projects, innovating,<br>and/or talent attraction. | Lead | 2023       |  |
| Develop County Economic<br>Development Overview<br>Handout | Several member-municipalities currently undertake regular boots-on-the-ground support.  |      |            |  |

|   | Other upper-tier municipalities, such as Grey<br>County's Made In Grey, have specific BRE webpages<br>that outline resources available. Whereas Bruce<br>County targets entrepreneurs by providing a business<br>plan template, Wellington County will develop a<br>departmental overview that highlights support and<br>opportunities available to businesses at the regional<br>level. This will accent the County's existing digital<br>presence and provide a physical handout for<br>businesses to reference and find contact<br>information. The County will also work with member-<br>municipalities to distribute these handouts when<br>they have business meetings in their municipalities. | Lead | 2023 |
|---|---|------|------|
| Undertake Business<br>Attraction<br>Communication | The County will meet with local, provincial, national,<br>or international businesses that are interested in<br>expanding or growing their business in Wellington<br>County. As part of this action, the County will explain<br>the strategic and competitive advantages of locating<br>in Ontario and Wellington County. Business<br>attraction strengthens the County's economy by<br>bringing new, high-quality jobs to the region.  | Lead | 2023 |

| Strategic Priority 3 – Celebrate and Promote Business Success                   |  |      |            |
|---|--|------|------------|
| Action  | Description  | Role | Commencing |
| Identify business<br>innovation and success<br>through the COVID-19<br>pandemic | When businesses shut their doors during the COVID-<br>19 pandemic, some had the opportunity to innovate,<br>pivot, or try something new. Several of these new<br>ventures resulted in significant business growth. The<br>County will look to identify who these businesses<br>are, what led to the success, and how they plan to<br>move forward. | Lead | 2023       |
| Promote business success<br>on digital channels                                 | The businesses that are identified from the previous<br>action will be promoted on the County's digital<br>channels (i.e. social media, webpages, newsletters)<br>to celebrate them and notify the public of their new<br>offerings.   | Lead | 2023       |
| Host Business Celebration<br>Events   | Collaborating with relevant partners, the County will<br>develop a plan for hosting industry-specific events to<br>celebrate these successes. This will provide valuable<br>B2B networking opportunities as well as additional<br>exposure to neighbouring business activities.  | Lead | 2023-2025  |

| Strategic Priority 4 – Collaborate with Partner Organizations on Supporting Small Businesses |             |      |            |
|--|-------------|------|------------|
| Action   | Description | Role | Commencing |

| Pilot a business<br>competition with partner<br>organizations   | The County, the Business Centre of Guelph-<br>Wellington, and Innovation Guelph will deliver<br>business competitions. The competitions will result<br>in supports being offered such as valuable expert<br>mentorship time. The County would receive valuable<br>feedback as part of this competition (i.e. a survey<br>completion to be entered into a draw), while<br>businesses will have a new opportunity to receive<br>additional expertise and support. The County will<br>also look at being more involved and support local                       | Lead | 2023 |
|---|---|------|------|
| Participate and support<br>regional networking<br>opportunities | <ul> <li>municipal business plan competitions hosted by<br/>member municipalities.</li> <li>County Economic Development will continue to<br/>participate in tradeshows, conferences, and local<br/>committee meetings where local businesses will be<br/>in attendance. This provides an opportunity for<br/>networking and educating businesses about the<br/>County's BRE support and efforts. For example, the<br/>County participates in the annual Innovation Expo<br/>hosted by Innovation Guelph, and in Ontario Food<br/>Cluster events.</li> </ul> | Lead | 2023 |

| Action                | Description  | Role | Commencing |
|-----------------------|--|------|------------|
| Support Agriculture   | With an average of \$60M to \$80M per year in<br>construction activity, and the research, soil quality<br>and regional expertise, agriculture is a strong and<br>diverse sector in Wellington County. To support the<br>sector and its over 3,200 jobs, the County will revisit<br>the Food and Beverage Industry Strategy, work with<br>partner agencies and Smart Cities to encourage<br>agrifood start ups, and better understand the unique<br>offerings and problems that need to be solved<br>locally. In addition to unique local strengths, several<br>international trade agreements position the County<br>well for international investment attraction. The<br>County will continue to participate in the Ontario<br>Food Cluster, seek knowledge transfer and value-ad<br>opportunities to benefit the County, and promote<br>Wellington County as a global investment site for<br>food. | Lead | 2023       |
| Support Manufacturing | Manufacturing represents 8,700 jobs in Wellington<br>County, and 10% growth in jobs in the last 5 years.<br>Industrial development activity has increased<br>steadily over the last five years, with significant<br>expansions made in several industries.<br>Understanding how to support these industries (i.e.<br>plastics) will be a priority. Also of importance will be<br>understanding the land and infrastructure capacity,   | Lead | 2024       |

|                      | with the County undertaking an employment land  |      |      |
|----------------------|---|------|------|
|                      | strategy.   |      |      |
| Support Health Care  | The health care sector in Wellington County has<br>grown to 3,800 jobs. Notable is the number of<br>health-related businesses that have opened in the   | Lead | 2023 |
|                      | last five years, many in the downtowns.   |      |      |
| Support Professional | While representing over 3,000 jobs in Wellington  |      |      |
| Services             | County, the professional and creative services sector<br>has grown the most in the last five years. The<br>implementation of the County Tourism Strategy will<br>support this sector, as will connecting to businesses<br>in this sector and promoting Wellington County as a<br>place where creative professionals can thrive. | Lead | 2023 |

The County works closely with the Western Ontario Wardens' Caucus (WOWC) to support its top sectors, as these sectors are representative across Southwestern Ontario. The WOWC advocates and engages with other levels of government as one united voice on opportunities, common needs, and issues of critical importance to Southwestern Ontario. The Caucus represents the voice of 15 upper and single tier municipalities representing 20% of the province's population. WOWC is focused on advocacy and partnerships supporting high-speed internet, Attainable Housing, Workforce Planning, Rural Transportation, and Infrastructure funding.

# 4.2. COMMUNITY IMPROVEMENT PROGRAMME

The Invest WELL Community Improvement Programme (CIP) allows the County of Wellington to provide grants, and loans to support business projects that significantly impact the community. The Invest WELL CIP budgets **\$160,000 per year** to support the seven membermunicipality CIPs.

The County has engaged RCI Consulting Inc to complete a CIP review and update. The updated document will better align with County goals and improve internal review processes. The new CIP document will be put forward for council adoption in 2023.

Programme information can be found at www.wellington.ca/cip.

Elora Distilling Company

| Strategic Priority              | Description  |
|---------------------------------|--|
| CIP Promotion                   | Focus will be on creating connections with local businesses that are investing in the community.<br>By recognizing and celebrating their completed projects, staff hope to encourage other<br>businesses to participate in a community improvement programme by showcasing the value<br>this type of investment brings to the community.   |
| Invest in County-<br>wide Goals | <ul> <li>Reviewing the Invest WELL CIP will ensure the programme targets projects will contribute to making Wellington County more resilient. The review will also seek to ensure the programme is efficient, scalable, and innovative.</li> <li>Use Land Strategically: Redevelop vacant/underutilized lands to grow employment.</li> <li>Provide Rental Housing: Upgrade or create new rental housing, promote mixed-uses, and downtown residential intensification.</li> <li>Improve Buildings and Infrastructure: Adapt buildings for reuse, incorporate sustainable features, and upgrade utilities/servicing.</li> <li>Diversify the Economy: Create new on-farm diversified or agriculture-related uses, new business in a target sector, and new business in downtown areas.</li> <li>Promote Tourism: Increase short term accommodation options, enhance tourism assets, and participate in tourism promotion.</li> </ul> |

| Strategic Priority 1 – CIP Promotion         |  |              |            |
|--|--|--------------|------------|
| Action                                       | Description  | Role         | Commencing |
| Collaborate with<br>Member Municipalities    | The County will work with member municipalities to make it easier for potential applicants to access     |              |            |
|  | information. Staff will hold joint CIP presentations and   | Support      | 2023       |
|  | information sessions with member municipalities. In  |              |            |
|  | addition, early discussions with both County and   |              |            |
|  | member municipal representatives will enable a more effective process for applicants.                    |              |            |
| Distribute Marketing                         | As mentioned in the BRE section, the County will also  |              |            |
| Materials                                    | develop a brochure that outlines resources available to  |              |            |
|  | the business, which include information about the  |              |            |
|  | Invest WELL CIP. The County will provide these   |              |            |
|  | materials when visiting businesses for future project  |              |            |
|  | considerations and to spread the word about the CIP.   | Lead/Support | 2023       |
|  | The County has also developed a webpage that   |              |            |
|  | highlights all the completed CIP projects with before  |              |            |
|  | and after photos at  |              |            |
|  | https://www.wellington.ca/en/business/ed-completed-  |              |            |

| Strategic Priority 2 – Invest in County-wide Goals   |   |      |            |
|--|---|------|------------|
| Action   | Description   | Role | Commencing |
| Clarify internal roles and<br>responsibilities for Tax<br>Increment Equivalent<br>Grants (TIEG). | The TIEG requires involvement from Economic<br>Development, Treasury, and in some instances Planning<br>staff at both the County and member-municipalities. This<br>internal review process will be improved to ensure greater<br>consistency and role clarity among stakeholders when<br>administrating tax increment equivalent grants.   | Lead | 2023       |
| Establish a Community<br>Improvement Plan<br>Working Group with<br>Member Municipalities         | The County will create more dialogue, awareness, and<br>continuous improvement opportunities and resolve<br>challenges experienced with the Community Improvement<br>Plan amongst the County and the member municipalities.<br>It is anticipated that the group will meet at least two times<br>a year with discussions which may include upcoming CIP<br>applications or areas for process improvements. | Lead | 2023       |
| Review the Community<br>Improvement<br>Programme to better<br>align with County<br>priorities.   | The County has hired RCI consulting to revise the Invest<br>WELL CIP programme to be more impactful, transparent,<br>and aligned with County priorities (attainable housing,<br>promoting tourism, improving building<br>reuse/sustainability.)   | Lead | 2023       |
| Develop an annual CIP<br>report to Council   | The annual CIP report highlights to Council the projects<br>funded by the CIP, return on investment, successes, and<br>rejected applications from the previous fiscal year.   | Lead | 2023       |

# 4.3. TALENT ATTRACTION AND NEWCOMER SUPPORT

Retaining and growing businesses in Wellington County requires a labour force that is adequate in supply and sufficiently skilled to meet employer demands. The County has committed to proactively attracting immigrants and newcomers, from anywhere in Canada, to support the local economy. While the County works on talent attraction, at the same time, companies must be aware of their role in helping create the right workplace environment that would help attract and retain the best talents.

In recognition of a growing workforce challenge, the County benefits from being part of the bigger picture, as a member of the Western Ontario Warden Caucus (WOWC) - a strategic regional economic development planning body. As the County

designs and implements its own newcomer attraction portfolio, the County will continue to support the WOWC Workforce Planning as its Strategic Priority 1 in its Economic Development Strategic Plan.

The year 2021 saw 9 in 10 recent immigrants living in one of Canada's 41 census metropolitan areas (CMAs), which are large urban centres of over 100,000 residents – as was the trend over the past 50 years. However, the share of recent immigrants who have settled in Canada's largest urban centres continued to decline, falling from 56.0% in 2016 to 53.4% in 2021. In contrast, an increasing number of recent immigrants have settled outside these key urban centres, strengthening population growth: 4.4% in small urban areas and 3.2% of recent immigrants settled in rural areas.

The County embarked on promoting Wellington County as a welcoming place to live and work, to help attract newcomers as early as 2015. Through the Talent Attraction and the Newcomer Support Programme, with support from Immigration Refugee and Citizenship Canada (IRCC), some strides have been made. However, much more needs to be done to create a more welcoming community for newcomers and supporting businesses in becoming more inclusive and welcoming workplaces.

| Strategic Priority | Description   |
|--------------------|---|
| Support for        | This priority focuses on supporting employers to make their workplaces more respectful and      |
| employers          | open to diversity. In addition, this priority helps connect employers with resources to develop |
| becoming more      | strategies and awareness of necessary accommodations to help create successful newcomer         |
| diverse and        | integration. Finally, this programme helps guide local businesses on the benefits of            |
| welcoming.         | newcomers to their companies and workforce.   |
| Create more        | As Wellington County becomes more diverse, residents and businesses must be sensitive to        |
| welcoming          | newcomers. This priority aims to make residents and businesses aware of the benefits of         |
| communities        | having newcomers, as well as how being welcoming and friendly to them is essential to their     |
|                    | transition into the community. A welcoming County has community-wide benefits;                  |
|                    | newcomers come with diverse skills and experiences needed for Wellington County to              |
|                    | continue to be a thriving place to live, work, and play.  |

| Be a relevant and  | This priority focuses on ensuring that Wellington County positions itself as an attractive |
|--------------------|--|
| trusted partner to | destination for newcomers and ensuring that we have the support and services necessary to  |
| newcomers          | make their transition successful into their new community. This will include working with  |
|                    | existing communities, long-time residents, and employers to ensure preparedness and        |
|                    | harmonious co-existence.   |

| Strategic Priority 1: Support for employers becoming more diverse and welcoming                             |  |                  |            |
|---|--|------------------|------------|
| Action  | Description  | Role             | Commencing |
| Facilitate employers'<br>forums, workshops, or<br>events under Workplace<br>Diversity and Inclusion         | This action will work closely with the Local Immigration<br>Partnership to proactively address ongoing hot topics,<br>such as immigration programmes, building HR<br>strategies for Diversity and Inclusion, and making<br>workplace more inclusive. Facilitation methods may<br>include forums, workshops, or events. In addition,<br>partnering with LaunchIt will assist in delivering and<br>hosting workshops and connecting with employers in<br>the northern part of the County. Employers are<br>expected to gain capacity, relevant tools, and<br>perspectives from the presentations of DEI experts.   | Lead/<br>Partner | 2023       |
| Facilitate one-on-one<br>employer engagement<br>sessions about talent<br>attraction needs/barriers          | This action aims to emphasize awareness on the talent<br>attraction problems faced by employers and connect<br>best possible solutions through talent attraction<br>supports. The County would discuss labour/ resources<br>challenges being experienced by employers, become<br>familiar with regional needs and trends, speak to the<br>benefits of newcomers, and ways to overcome these<br>challenges. Engagement methods may include<br>individual employer meet and greet sessions, and<br>employer "mentoring newcomers" volunteer<br>opportunities to give back to the community.  | Lead             | 2023       |
| Develop and distribute<br>Talent Attraction<br>information materials to<br>local community<br>organizations | This action will develop and distribute materials to<br>economic development, as well as update the<br>Newcomer Support webpage for better user<br>experience to ensure businesses and newcomers know<br>that we exist and how we can help them. In addition,<br>efforts will be focused on the County's industries that<br>are most in need of talent, and to help build awareness<br>of the type of employers and jobs that are available.<br>Proactive flyer distribution to these industries allows<br>for a constant reminder of talent attraction services<br>and the benefits newcomers could have on their<br>business. Materials would be distributed to<br>stakeholders like: Chamber of Commerce, Trade<br>Organization, Support Service Providers, and others. | Lead             | 2023       |

| Strategic Priority 2: Create  | Strategic Priority 2: Create more welcoming communities  |                  |            |  |
|---|--|------------------|------------|--|
| Action  | Description  | Role             | Commencing |  |
| Plan and host Multi-<br>Cultural Festival(s) and/or<br>events                           | This action will look at working closely together with<br>Settlement Service Providers, the Local Immigration<br>Partnership, and member municipalities with an aim to<br>acknowledge, appreciate, and celebrate the multi-<br>cultural diversity located within the County. It provides<br>an opportunity to build stronger connections and<br>awareness of the cultures among residents. Events may<br>include community get togethers, celebrating religious<br>events, and others. This may also include utilising the<br>exhibits at the WCMA to showcase "Immigrants - then<br>and now". | Partner          | 2023       |  |
| Make Wellington County<br>"Welcoming Community"<br>public awareness<br>campaign         | The County will work closely with Settlement Services<br>and aim to raise awareness among community<br>residents of the importance of immigration and the<br>role each member of the public plays in making sure<br>the community is welcoming. A public awareness<br>campaign may include setting up social circles with<br>community leaders and video promotions of local<br>newcomer success stories within the County.  | Partner          | 2023       |  |
| Support and encourage<br>newcomer welcoming<br>initiatives in member<br>municipalities. | This action aims to encourage initiatives that make<br>newcomer integration into the community successful.<br>The County will encourage the provision of appropriate<br>(culturally sensitive) welcome packages and the hosting<br>of newcomers' welcome events in all member<br>municipalities.   | Lead/<br>Partner | 2023       |  |
| Facilitate the creation of<br>Newcomer Welcoming<br>tours.                              | In partnership with Tourism, this action will allow<br>newcomers to experience and become familiar with<br>key points of interest in the County. The newcomer<br>welcoming tour will also create an opportunity for<br>newcomers and members of the broader community to<br>socialize and develop connections.   | Partner          | 2024       |  |
| Develop and deliver<br>"Creating a Welcoming<br>Community" training.                    | This action will work with a Subject Matter Expert/DEI<br>Expert and aim to remind elected officials and senior<br>management of the importance of newcomers and<br>how to be more welcoming and highlight barriers<br>newcomers face in the community and its effect.   | Support          | 2024       |  |

| Strategic Priority 3: Be a relevant and trusted partner to newcomers                   |  |             |      |  |
|--|--|-------------|------|--|
| Action Description Role Commenci   |  |             |      |  |
| Develop and execute a<br>multi-channel<br>promotional strategy<br>focused on elevating | This action aims to elevate prospective newcomer<br>awareness of Wellington County, as a place to live and<br>work. The multi-channel promotional strategy may<br>include participating, sharing information/resources,<br>and representing Wellington County at expos such as | Participate | 2023 |  |

#### 4.4. **TOURISM**

Tourism is a key part of Economic Development and plays an important role in attracting investment, talent, and sales to a region.

The County is home to key tourism destinations, including Elora-Fergus, the Aberfoyle Antique Market, the Grand River Conservation Areas, and many outstanding festivals and events that attract significant numbers of visitors to the area. Currently, the County of Wellington's Economic Development division undertakes limited initiatives to support the local tourism sector.

Through the award-winning Taste Real Local Food

programme, the County promotes local farm and food businesses and actively promotes culinary and agritourism experiences. We work closely with municipal stakeholders to amplify local festivals and events through the Top 5 Things to do in Wellington County campaign, the online Festival and Events calendar, and the Experience Wellington website. The CIP and Tourism signage programmes further support tourism businesses locally. Beyond that, we have not had an active tourism mandate to date.

Leveraging the \$85,000 received as part of the 2022 FedDev Tourism Relief Fund, the County is developing a tourism strategy to establish the County's role within the local tourism eco-system. The plan will identify strategic opportunities to support the sector and enhance the County's positioning as an appealing rural tourism destination. This includes strategic business support and network building activities, fostering tourism product development, and actively telling the story of Wellington County to attract visitor spending and economic opportunity.

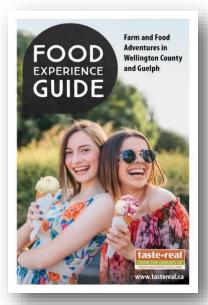

| Strategic Priority                              | Description  |  |
|---|--|--|
| Strengthen the Tourism<br>Network and Operators |  |  |
| Facilitate Tourism<br>Experience Development    | Staff will foster the development of market-ready tourism products and<br>experiences to encourage visitor spending in all areas of Wellington County. This<br>includes supporting industry-led and partner-led tourism product development as<br>well as create seasonal/product focused self-guided trails. Working with other<br>County Departments and organizations, the team will identify gaps and<br>opportunities and elevate underutilized tourism assets. Staff will continue to<br>collaborate the Wellington County Museum and Archive's Destination<br>Development study and future visitor experience focused projects. |  |

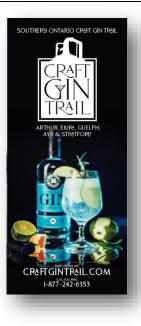

| Market and promote | Telling the story of Wellington County in an authentic and engaging way is key to  |  |  |
|--------------------|--|--|--|
| Wellington County  | encourage visitation and support local businesses. To allow for more strategic   |  |  |
| experiences        | outreach and allocation of marketing dollars, staff will create a marketing and  |  |  |
|                    | communications plan, refine our online presence, and update photo and video<br>assets. Staff will continue grow engagement in the Tourism Signage initiative and<br>further engage with regional and provincial partners to amplify our messaging. |  |  |

## 4.5. SHOP LOCAL SUPPORT

Shopping locally has enjoyed some unprecedented attention over the last few years as the pandemic disrupted supply chains, especially in the grocery sector.

Consumers sought out local options to purchase food and supplies, and many farm and food businesses adapted their sales and delivery models to fit with these new demands and ever-changing health regulations.

With retail storefronts closing their doors to in-store traffic, many retailers pivoted to offer a variety of new sales channels, including phone and online while restaurants offered take-out and prepared food options to be reheated at home.

Downtown Erin

This challenging time led to some business closures, yet others embraced the change and adapted. This led to new products, new avenues for sales, and in some instances, a new service delivery model. These efforts resonated with many consumers, and staff saw incredible support showcasing pride of place in community members making an effort to buy local, promoting businesses through social media, purchasing gift cards, and shining a light on local like never before.

Municipalities and Chambers ran a variety of shop local and gift card campaigns, and the County efforts included the creation of a Takeout Food Map, a Picnic campaign, a farmers' market box series, a holiday food and gift guide, and seasonal shop local itineraries.

Over the next three years, staff aims to build on the momentum and continue to work with local businesses and partners (municipalities, chambers, etc.) to keep shopping locally front of mind. This means assisting businesses with expanding into new commerce options, creating, and maintaining an online presence, supporting the downtowns, and providing reasons for locals and visitors to eat, shop, and play locally. Staff will also continue to work with farm and food businesses to highlight local food options through the award-winning Taste Real Programme.

| Strategic Priority            | Description  |
|-------------------------------|--|
| Broaden Shop Local<br>support | Having built a strong shop local food brand through the Taste Real programme,<br>staff will leverage the successes and support shop local opportunities for<br>businesses within and outside the food/ag sector. Staff will focus on strengthening<br>downtowns, provide access to business support, and increasing a digital presence                             |
|                               | and sales opportunities.   |
| Taste Real                    | Leveraging Wellington County strong agricultural sector and rich local food<br>offerings, staff will strengthen local purchasing relationships through food service<br>and directly through residents. Key deliverables include the facilitation of local<br>events, the production of the Local Food Map, and assistance to the Farmer's<br>Market Working Group. |

| Shop Local Marketing | Staff will amplify the shop local messaging by supporting local initiatives, creating applicable seasonal campaigns, and highlighting the excellent made-in Wellington County products and businesses. |

|---|--|---------|------------|
| Action  | Description  | Role    | Commencing |
| Amplify partner shop<br>local campaigns   | Staff will work with local partners (Municipalities,<br>BIAs, Chambers) to support shop local campaigns by<br>utilizing County communication channels.   | Support | 2023       |
| Business highlights and advertising in local media                              | Work with local media to showcase Wellington<br>County businesses and products. Facilitate the<br>production of the quarterly Toque Magazine<br>business feature.  | Lead    | 2023       |
| Create seasonal<br>marketing campaigns<br>highlighting locally made<br>products | Through the creation of seasonal shop local<br>campaigns, staff will amplify awareness of local<br>products and businesses informing residents about<br>excellent options available locally. These campaigns<br>correspond with holidays, such as the Holiday Food<br>and Gift Guide, or seasons (Nurseries and<br>Greenhouses in the Spring). | Lead    | 2023       |

Seasonal Shop Local Campaign

# 4.6. WORKFORCE DEVELOPMENT

The County understands the importance of the need to attract and maintain employees to sustain its economy. While workforce demand may not have changed, there have been significant changes to labour market trends. It is more difficult to attract workers to traditional industries, on which the local economy relies. This fact is coupled with lesser interest in youth entering such industries, and employers' expectations of workers not meeting labour market realities.

Data from the Workforce Planning Board shows certain populations, specifically aged 20 to 24, have disengaged from

Wellington Perforated

the labour market. These realities present the need for supporting local employers. Staff have seen that employers who have invested in their employees, with skill building and culture development, have seen lower turnover rates.

By identifying strategic opportunities for skills development and training partnerships, analyzing workforce and labour force metrics on a continuous basis, and committing to workforce attraction and retention efforts, the County and its business climate will work to improve and be proactive towards workforce development opportunities and challenges.

| Strategic Priority                    | Description  |  |
|---------------------------------------|--|--|
| Skills Development and                | This priority aims at preparing and enhancing the skill acumen and training  |  |
| Training Partnerships                 | opportunities to those within the County. The County will work with partners to<br>identify industry skill gaps and facilitate the appropriate training programmes as<br>well as support the creation of employment readiness sessions. Inspiring today's<br>youth, the County will seek to visit elementary and high schools and talk about<br>local opportunities available right now in in-demand sectors and the salaries that<br>accompany them.  |  |
| Workforce and Labour                  | The County will monitor and analyze commuting patterns into and out of the   |  |
| Force Metrics Analysis                | County as it relates to local and out-of-County employment figures. With<br>collaboration from the Wellington-Dufferin Workforce Planning Board and<br>additional partners, the County will continue to develop and maintain connections<br>geared towards the compilation of workforce and labour market research and the<br>execution of an employment gaps and housing gap analysis within the County.  |  |
| Workforce Attraction and<br>Retention | This priority aims at emphasizing the importance of workforce attraction and retention within the County. Retaining and attracting new employees in County businesses requires that the expectations between employees and employers be bridged. The County will meet with employers to understand expectations, and will also study salaries, culture, and perceptions in specific industries across the region. The County can provide employers with educational tools known as "In the Eyes Of." Expanding upon existing workforce resources will broaden the capabilities to attract and retain employees in a variety of job sectors, which will create the potential for a sector-specific workforce recruitment pilot to be initiated within the County. |  |

| Strategic Priority 2 – Workforce and Labour Force Metrics Analysis   |  |              |            |
|--|--|--------------|------------|
| Action   | Description  | Role         | Commencing |
| Analyze ongoing workforce<br>commuter patterns in and<br>out of the County                                   | This action will look at analyzing ongoing<br>workforce commuter patterns in and out of the<br>County, as well as work-from-home trends and<br>figures, and pursue a partnership with Community<br>Futures for support. This will help the County<br>understand the flow of workers travelling from<br>home to work, specifically to see the demographics<br>that represent those with local jobs and those who<br>commute out of their municipality within the<br>County, and to understand what underlying factors<br>may influence these choices. | Lead/Support | 2023       |
| Continue developing and<br>maintaining connections<br>geared towards workforce<br>and labour market research | The County will develop and maintain connections<br>that are geared towards workforce and labour<br>market research, in order to understand patterns<br>that relate to industry gaps, employment gaps, and<br>additional variables that may influence the overall<br>workforce development potential within the<br>County.   | Lead         | 2023       |
| Employment Gap & Housing<br>Gap Analysis   | This action aims to produce an employment gap<br>and housing gap analysis for the County in<br>partnership with the Wellington-Dufferin<br>Workforce Planning Board. Looking into existing<br>employment gaps, housing gaps, and insight from<br>various sector representatives and stakeholders,<br>the County will conduct a more in-depth review of<br>how these existing gaps, for both current and<br>future labour force participants, affect the total<br>economic climate within the County and for<br>member municipalities.                | Lead/Support | 2024       |

| Strategic Priority 3 – Workforce Attraction and Retention |   |         |            |
|---|---|---------|------------|
| Action  | Description   | Role    | Commencing |
| Expanding upon Existing<br>Resources                      | The County will support the Wellington-Dufferin<br>Workforce Planning Board in the expansion of<br>existing resources that are currently being used as<br>they relate to workforce development.<br>Findyourjob.ca will have its access broadened and<br>marketability expanded into a labour market<br>information intelligence resource for Employment<br>Ontario, local government, jobseekers, and<br>employers. The County would also support the<br>Planning Board in the development of employer<br>accounts that would let employers customize<br>labour market information (LMI) dashboards for | Support | 2023       |

|   | their industry and organization to be able to view this information in real-time.   |              |      |
|---|---|--------------|------|
| Conduct a Workforce<br>Recruitment Pilot          | Agencies and sector representatives will be<br>consulted upon to gather information and interest<br>in pursuing a workforce recruitment pilot, and to<br>understand the major shortfalls in accessing all<br>types of talent within each sector. The County will<br>co-lead this action with the Wellington-Dufferin<br>Workforce Planning Board in order to conduct an<br>initial workforce recruitment pilot with the<br>healthcare sector.   | Lead/Support | 2024 |
| Continue with Day in the<br>Life Videos           | The County will look at providing financial support<br>to the Wellington-Dufferin Workforce Planning<br>Board for the continued creation and promotion of<br>content in the Day in in Life videos, as well as<br>recruitment for summer students to act as<br>videographers for these video segments. These<br>feature videos will continue to feature in-demand<br>local occupations where turnover rates are higher<br>and act as an information resource to help with<br>workforce development and increase the potential<br>to attract new talent across County-wide in-<br>demand sectors. | Support      | 2023 |
| Develop "In the Eyes Of"<br>Information Resources | The County will meet with employers to<br>understand organizational expectations, including<br>studying salary grades and wages, workplace<br>culture, and perceptions in specific industries<br>across the region. The County can then provide<br>employers with educational tools known as "In the<br>Eyes Of." The County will execute a campaign to<br>get the word out to employers.   | Lead/Support | 2023 |

### 4.7. ATTAINABLE HOUSING

A space that one calls home is a fundamental part of one's identity. As population and workforce gaps grow, and demands are on the rise, housing supply options and expected growth targets are at a crossroads. The current economic and housing climate is calling for the development of new housing options, different than the traditional single-family detached home Wellington County has seen to date.

With the goal of increasing the stock of rentals and higher density housing options, the County created an Attainable Housing Taskforce in 2021, with elected officials and senior staff providing direction in three different areas. A public awareness campaign educates the public on the realities of lack of housing, and for the role of the community in

being open to new housing options. Policy changes to improve the housing development environment within the County and member municipalities are also being explored, as is using the CIP to incent property owners to invest in creating and renovating units to increase the rental housing stock. The goal is to increase the number of housing units available that the County's workforce is trying to obtain, housing that is affordable to their income and satisfies their personal needs.

| Strategic Priority  | Description   |
|---|---|
| Public Awareness  | The public has a significant role in helping enable more housing options in Wellington  |
| Campaign  | County. Educating and raising public awareness on the importance of attainable<br>housing within the County and ways that individuals can contribute to its creation.<br>Through a marketing campaign, which will include real local stories on the impact of<br>housing in day-to-day lives, and a variety of public events with speakers from diverse<br>backgrounds in the housing community, staff look to emphasize the importance of<br>increasing housing types and densities within the County. |
| Improve the Housing<br>Development<br>Environment                     | This priority focuses on continual improvement to the process of developing housing<br>in the County. Staff will work alongside the Planning Department to encourage the<br>streamlining of the housing development process in Wellington County.   |
| Maintain and Expand<br>upon Opportunities for<br>Rental Housing Stock | This priority focuses on maintaining and creating opportunities to generate additional rental housing units in the County. Working with our various partners, including existing landowners, we can collaborate on utilizing the CIP programmes, partnerships, and planning tactics to encourage the creation of additional rental units.   |

| Strategic Priority 1 – Public Awareness Campaign |   |              |            |
|--|---|--------------|------------|
| Action   | Description   | Role         | Commencing |
| Encourage public<br>discussion                   | Staff will collect and share impact stories as part of<br>the campaign to emphasize the realities the current<br>housing climate is having on singles, seniors, families,<br>workers, immigrants, and businesses. Staff will<br>support member municipalities at their local public<br>information sessions as they pertain to the<br>importance of housing options. Various campaigns<br>will be developed, including community being defined<br>by its relationships and spaces, rather than its built<br>form. | Lead         | 2023       |
| Facilitate public<br>engagement sessions         | This action aims to build local knowledge and capacity<br>for the public to be open to and better understand<br>alternative housing options and land ownership. The<br>goal will be to facilitate discussions with the goal of<br>creating a more accepting attitude in understanding<br>the need for housing options in the community.<br>Speakers relevant to the topic will be engaged to<br>provide insight on the subject.   | Lead/Support | 2023       |

| Strategic Priority 2 – Improve the Housing Development Environment |  |         |            |
|--|--|---------|------------|
| Action   | Description  | Role    | Commencing |
| Improve County and<br>Municipally Adopted<br>Housing Literature    | County Planning staff and member municipalities will<br>review and adjust the language of their plans, policies,<br>and bylaws to encourage housing development outside<br>of single-family detached dwellings within the County.<br>This will include updating the County Official Plan,<br>including the implementation of Community Planning<br>Permit System policies. | Support | 2023       |
| Identify and enhance<br>underutilized lands                        | Staff will support Planning and Housing staff, and<br>member municipalities, in identifying underutilized<br>properties with the potential for developing housing.   | Support | 2023       |
| Develop Housing<br>Incentive Programmes                            | This action aims to work alongside member<br>municipalities to research and implement County CIP<br>programmes that would be enticing for members of<br>the development and non-profit community to<br>participate in, to encourage more housing projects<br>within the County.  | Support | 2023       |

| Strategic Priority 3 – Maint   | Strategic Priority 3 – Maintain and Expand Upon Opportunities for Rental Housing Stock  |         |            |
|--|---|---------|------------|
| Action   | Description   | Role    | Commencing |
| Maintain Regional<br>Partnerships  | Staff will continue to build relationships with<br>community organizations, including non-profits, and<br>serve as a conduit between them, partner<br>organizations, municipal planning departments, and<br>funding sources as it pertains to housing. Work<br>alongside the Western Ontario Wardens' Caucus, the<br>Centre Wellington Healthy Growth Advisory<br>Committee, and other groups with an objective to  | Support | 2023       |
| Explore land for housing   | combat housing issues.<br>The County will discuss with and encourage<br>community organizations and businesses that own<br>land to maximize the utilization of their land and<br>purpose by undertaking an attainable housing project<br>component. This initiative compliments efforts<br>towards business attraction and sector development.  | Support | 2023       |
| Collect Housing Metrics  | As a benchmark, data will be compiled as it relates to<br>new units created across Wellington County. Staff will<br>support the Planning Department in improving the<br>consistency in the collection of local building data.<br>Additional metrics can include social media traffic on<br>posts relating to housing, attendance rates for public<br>information sessions, types of enquiries as it relates to<br>housing, and the uptake on CIP programmes that<br>correlate to new housing or additional investment<br>onto existing housing stock. | Support | 2023       |
| Promote the creation of<br>Additional Residential<br>Units (ARUs) in the<br>County | This action will look at public awareness, education,<br>and promotion of the creation of additional residential<br>units to new or pre-existing homes within the County.   | Support | 2023       |

## 4.8. OUR FOOD FUTURE

The Smart Cities Office launched in 2020 when the County partnered with the City of Guelph to create the Our Food Future project. Awarded \$10M by the INFC to build a Circular Economy (CE) within our regional food supply chain, the work of Our Food Future is contributing to local resiliency by designing waste out of the system.

The high-level goals of this project are to:

- Increase access to affordable nutritious food
- Create new circular businesses and collaborations
- Increase economic value of waste

The Circular Economy (CE) is emerging as a key tool in sustainable planning and strong stewardship action. In

opposition to our linear economy – which relies on extractive resources and expects to produce waste – circularity sees waste as a design flaw. By identifying ways to connect by-products to new value chains, we are creating greater efficiency and resiliency. The Circular Economy approach aligns with climate action plans, net zero targets, and Indigenous world views.

Since 2020, the Smart Cities project has gone from strength to strength, adding an additional \$5.7M in federal and private funding. It has launched COIL – the Circular Opportunity Innovation Launchpad – to extend business support to all of Southern Ontario, and the Zero Waste Economic Transformation Lab (ZWETL) to apply circular practice shift to non-food sectors. It just announced the creation of the Circularity and Climate Solutions Hub which will develop systems to scale environmental solutions. The Smart Cities project has garnered national and international awards, and the world is now looking at our region as a centre of expertise and leadership in Circular Economy.

Our Food Future is funded only to the end of 2023. A plan is being drafted to continue the momentum of our work and identify a strategy to keep existing partnerships and programmes running.

| Strategic Priority         | Description  |  |
|----------------------------|--|--|
| Continued expertise in     | Our municipality demonstrated a commitment to innovative partnerships by                           |  |
| circular economy practices | launching the Our Food Future project. The County will meet the original triple                    |  |
|                            | bottom line goals of the initial project – waste reduction, food security, and business            |  |
|                            | growth – and continue to be seen as a leader in CE in additional sectors. This                     |  |
|                            | leadership advantage will attract innovative businesses and investment opportunities               |  |
|                            | focused on the Net Zero economy.   |  |
| Supporting the evolution   | Agriculture is undergoing rapid transformation. The changing climate is putting new                |  |
| of agriculture             | pressures on crops and animals through extreme weather events and shifting growing                 |  |
|                            | zones. Global commitments and recent federal policies and funding recognize these                  |  |
|                            | new challenges; they now require greater carbon sequestration and fewer                            |  |
|                            | Greenhouse Gas (GHG) emissions to be achieved through emerging best practices and                  |  |
|                            | technology solutions.  |  |
|                            | As one of the largest drivers of our region's economic activity, our agricultural sector           |  |
|                            | is positioning to thrive in these new conditions and will need support for:                        |  |
|                            | <ul> <li>New best practices: As farmers adapt, they will require help to backstop risk,</li> </ul> |  |
|                            | encourage uptake, and verify place-based results.  |  |

| • | New connectivity: As fibreoptic and expanded cell networks reach our rural<br>areas, data-driven machinery will demand new labour force skill sets and<br>protection from cybersecurity risks.<br>New focus on adaptation: Food security planning must be grounded in a climate<br>resilient agri-food system at a regional, coordinated level. |
|---|---|
|---|---|

| Strategic Priority 1: Expertise in circular economy practices                       |  |         |            |
|---|--|---------|------------|
| Action  | Description  | Role    | Commencing |
| Meet the initial goals of<br>Our Food Future  | Increasing value from waste, building access to<br>nutritious food, and training newly circular businesses<br>are components of our triple bottom line goal of<br>"50/50/50 by 2025". This overarching benchmark will<br>be met by the end of our funding in December 2023.                                      | Co-Lead | 2020-2023  |
| Continue to reduce waste<br>in innovative ways                                      | The IC&I green bin pilot has been a successful example<br>of innovative and circular waste reduction, providing<br>service to local businesses and rescuing edible food for<br>local residents. The County will work with Solid Waste<br>Services to ensure we can promote expansion of these<br>service routes. | Partner | 2024-2025  |
| Continue to deepen our<br>support for food security                                 | Working in partnership with public health agencies,<br>large emergency food organizations in Guelph, and local<br>not-for-profits, the County will continue to build circular<br>connections to support our most vulnerable<br>households.   | Partner | 2024-2025  |
| Continue to connect local<br>businesses to CE training<br>and funding opportunities | The COIL programme of Our Food Future has<br>established an extensive system of scaled funding and<br>training streams which will continue to expand. Sharing<br>these ongoing opportunities with WMEDG partners will<br>position our businesses for success.  | Partner | 2024-2025  |

| Strategic Priority 2: Supporting the evolution of agriculture  |   |         |            |
|--|---|---------|------------|
| Action   | Description   | Role    | Commencing |
| Develop the Experimental<br>Acres                              | Farmers are moving towards climate friendly best<br>practices and need sector support during this transition.<br>The Experimental Acres has been designed as a<br>municipal tool to do this while coordinating connections<br>to additional funding. The County will evaluate and<br>evolve the current pilot and share what is learned with<br>other municipalities. | Lead    | 2023       |
| Host and participate in<br>knowledge events for<br>agriculture | The County will continue to promote regenerative<br>agriculture and soil health knowledge by convening and<br>attending events, conferences, and partnership<br>meetings for the agricultural sector.   | Partner | 2023       |

| Investigate opportunities<br>related to agricultural<br>technology    | Broadband expansion, precision technology and<br>cybersecurity issues will impact agriculture in our region<br>over the next three years. The County will pursue pilots<br>and partnerships to strengthen our region's readiness<br>for these innovations. | Connector | 2023-2025 |

| Food security planning<br>grounded in a resilient<br>agri-food system | The County will contribute to the Planning<br>Department's future Climate Adaptation plan,<br>supporting a coordinated approach to local food hubs,<br>future weather stressors, pests, and new growing zone<br>challenges.                                | Partner   | 2024      |

Experimental Acres at Falk Farm, Erin

# 4.9. BROADBAND INTERNET AND CONNECTIVITY

The internet is essential to our families, farms, and businesses. For Wellington County to remain competitive in today's global economy, broadband internet must be available to every address in the County.

Broadband internet roll out is being handled by the Provincial government. The Province through Infrastructure Ontario will provide internet service providers (ISP) and telecommunication companies an opportunity to bid for the opportunity to connect communities, including those in Wellington County. Wellington County has allocated approximately \$4 million, demonstrating our proactive commitment to ensuring broadband internet is delivered quickly and effectively. The \$4 million will help accelerate reviews,

approvals of infrastructure installations, and be used as an incentivization tool for ISPs and Telecommunication companies to exceed service performances included in their proposals.

The County is working closely with our previous SWIFT partners and the Western Ontario Wardens Caucus in their advocacy efforts to speed up the installation of broadband internet and to ensure the chosen ISP's deliver the speeds and service capacity indicated in the provincial RFP's.

| Strategic Priority               | Description   |
|----------------------------------|---|
| Internet investment<br>readiness | This priority aims to ensure that we are ready when SWIFT 2.0 expansion activity begins.<br>The County will be pre-emptively prepared by allocating funds for the possible creation<br>of incentives to fill gaps in service. This action also ensures we are advocating Wellington<br>County's needs to other forms of government and proactively developing an awareness<br>of Wellington County.   |
| Ensuring digital equity          | The expansion of connectivity will benefit many, but equity will remain a concern.<br>Fibreoptic networks will need to be balanced with lower-cost cell tower coverage in<br>order to ensure accessibility for all residents.<br>Expanded networks also introduce opportunities for enriching County functions such as<br>newcomer attraction, tourism, and emergency preparedness. Examples may include<br>a dedicated hot spot programme for newcomers, an electric trolley between anchor<br>tourism communities, and emergency management communication hubs. |

The province has publicly committed to having broadband internet available across the Province by 2025.

| Strategic Priority 1 - Internet investment readiness                                  |  |            |            |
|---|--|------------|------------|
| Action  | Description  | Role       | Commencing |
| Re-establish the<br>County Broadband<br>Working Group                                 | This action aims to ensure the County is organized and<br>aligned across its departments and able to mobilize to<br>deliver on broadband. The group will be focused on<br>advocacy, planning discussions with chosen ISPs, and<br>ensuring our municipal permitting process is able to<br>respond quickly to the influx of permit requests during<br>construction.<br>During construction, this group will address and triage high-<br>priority incidents and deficiencies. The group will triage<br>high-priority issues during construction. | Facilitate | 2023       |
| Collect internet speed<br>data throughout the<br>County over a multi-<br>year period. | This action aims to collect baseline internet speed data. This<br>data is not publicly available to the County. This data will<br>aid our understanding if SWIFT 2.0 is delivering on the<br>forecasted internet speeds and identifying areas requiring<br>improvement.<br>Through targeted mailouts and social media posts,<br>members of the public will be encouraged to run speed<br>tests and submit the data to the University of Guelph's<br>R2B2 Lab for analysis.   | Lead       | 2023       |

| Strategic Priority 2 - Ensuring digital equity |   |         |            |
|--|---|---------|------------|
| Action   | Description   | Role    | Commencing |
| Tracking digital services                      | Mapping the gaps in service and understanding the rollout<br>of expanded coverage will highlight the range of choices<br>available to our residents. Working with Social Services and<br>poverty action groups will allow the County to plan supports<br>where they are needed, such as adding public wifi spots. | Partner | 2023       |

# 4.10. RURAL TRANSPORTATION

In 2015, Wellington County conducted a rural transportation study with the Rural Ontario Institute to understand existing service providers and public transit demand levels. The rural transportation service providers in the County of Wellington are summarized in Appendix "B". Around the same time, Economic Development completed 400 Business Retention and Expansion surveys with businesses, and we heard that transportation was a barrier for their workers.

In 2018, the County received provincial funding to pilot a rural transit model. RideCo Inc., a Waterloo-based technology company, was hired to build an app and develop an on-demand transit service to meet the needs of

County residents across a large geographic region. The service works by pooling passengers travelling to similar destinations in one vehicle, thereby reducing the number of vehicles needed while maintaining the on-demand functionality. The pilot is ongoing but is set to end in 2025. A service review is currently underway with Dillon Consulting Ltd. to help determine how the programme will operate beyond its pilot phase. Aside from requiring a full-time dedicated staff position, the service is heavily subsidized by public funding. The service is likely to continue needing subsidy to maintain its affordable, low-cost rate for the public. RIDE WELL was also initially intended to help attract talent to communities and extend employers' reach to a larger talent pool. However, the end-user to date has been residents that have limited alternative options for frequent essential trips. For example, customers tend to use the service to get to lower-income employment, to appointments that they cannot drive to, or to complete essential errands such as grocery shopping and banking.

The review by Dillon Consulting will help determine long-term options for transportation in Wellington County. This will include cost implications, cost-benefit analysis of different service models (i.e., fixed-route, feeder services, etc.), administrative requirements, and potential funding opportunities.

As part of the review, the following strategic priorities have been identified for rural transportation in Wellington County:

| Strategic Priority  | Description  |
|---|--|
| Review RIDE WELL pilot<br>and determine<br>sustainability           | This priority will explore longer-term options for improvement of the Ride Well<br>services in line with the recommendations identified in the Wellington County<br>Roadway Master Action Plan.  |
| Connect and foster an<br>integrated rural<br>transportation network | Many transportation service providers have ceased operation due to low demand<br>throughout the COVID-19 pandemic. Wellington County will continue to expand<br>dialogue among transportation partners that remain and seek ways to integrate and<br>cross-market one another's offerings. For example, Ride Well and Guelph Owen<br>Sound Transportation (GOST) have agreed to partner on marketing and explore |

|  | transit opportunities. This action seeks to continue finding new pathways and partnership opportunities to enhance transit connectivity in Wellington County. |
|--|---|
|  |   |

| Strategic Priority 1: Review RIDE WELL pilot and determine sustainability   |   |      |            |
|---|---|------|------------|
| Action  | tion Description  |      | Commencing |
| Conduct cost-benefit<br>analysis of the RIDE WELL<br>pilot service to understand<br>future implications                                 | This action aims to objectively assess the cost<br>implications with the service in relation to its benefit to<br>better understand cost implications of continuing an on-<br>demand transit model. | Lead | 2024       |
| Review the RIDE WELL<br>Pilot Project and<br>determine long-term<br>administration and<br>sustainability of the<br>service              | roject and<br>nine long-term<br>istration and<br>mability of theand determine the successes, shortcomings, and<br>suitability of the model as a continued rural<br>transportation service offering. |      | 2022       |
| Develop a Lessons Learned<br>and Best Practices Report<br>based on the experience<br>with RIDE WELL as a rural<br>transportation option | and Best Practices Reportthe County learned from the RIDE WELL Pilot project. By<br>aggregating user data, surveys, and operational<br>challenges experienced, we will create a guide that          |      | 2025       |

| Strategic Priority 2: Connect and foster an integrated rural transportation network  |  |        |            |
|--|--|--------|------------|
| Action Description   |  | Role   | Commencing |
| Study and seek integration<br>of all Wellington County<br>transportation options<br>into trip-planning apps<br>and mapping solutions | This action aims to integrate RIDE WELL's service<br>offering when users are trip planning on various<br>applications (e.g. Google Maps). This would consist of<br>last kilometer services from existing bus stops to<br>destinations. This action would start with integrating<br>RIDE WELL and explore integration of other options in<br>the County thereafter. | Leader | 2025       |

|                            | This action will start preparing for these benefits. The  |         |      |
|                            | County will analyze commuter patterns and plan for        |         |      |
|                            | potential high-traffic routes between hubs of activity.   |         |      |
|                            | The County will also plan for sustainability by exploring |         |      |
|                            | the electrification/automation of transit fleets.         |         |      |
|                            |   |         |      |

# 5. MEASURING SUCCESS AND PROGRESS ROI

### 5.1. MEASURING PROGRESS

Many of Economic Development's contributions are intangible and difficult to track impact of every action. Staff have established a series of aspirational goals for each programme. These aspirational goals provide us a sightline to incrementally work towards in local communities. The County will compare its actions to this desired future state to ensure alignment with the economic vision for the community. Economic Development will prepare an annual report to the County Economic Development Committee demonstrating where the County is on the path to achieving the strategic priorities and success measures, while highlighting successes and challenges encountered along the way.

| Programme                                       | Strategic Priorities  | Success measures  |  |
|---|---|---|--|
|   | Public Awareness Campaign   | Successful submission of public impact stories to the<br>County that have generated ongoing online public<br>engagement and media traction to stress the<br>importance of attainable housing.<br>Strong public interest and attendance to public<br>information sessions surrounding the topic of attainable<br>housing.  |  |
| Attainable<br>Housing                           | Improve the Housing<br>Development Environment                        | <ul> <li>Greater amount of housing development proposals being submitted to the County and member municipalities as a result of improving and opening up municipally adopted literature (i.e. bylaws, strategic and official plans).</li> <li>Greater amount of housing development applications geared towards housing that is not just single-detached family homes; more housing stock variations becoming present within the County.</li> </ul> |  |
|   | Maintain and Expand Upon<br>Opportunities for Rental<br>Housing Stock | Greater number of ARUs being developed with new<br>housing projects.<br>Greater number of ARUs being developed within or<br>adjacent to existing housing within communities<br>throughout the County.<br>Increased rental housing stock within the County.  |  |
| Talent<br>Attraction and<br>Newcomer<br>Support | Support our employers<br>becoming more diverse and<br>welcoming       | Host 1 employer workshop/ event per year.<br>Onboard at least 3 employers as mentors to newcomers<br>per year.<br>Connect with at least 30 employers per year.  |  |
|   | Create more welcoming communities                                     | Successfully advertise local newcomer(s) success stories<br>promotional video.  |  |

|             |                                 | · · · · · · · · · · · · · · · · · · ·                      |
|-------------|---------------------------------|--|
|             |                                 | Host 4 newcomer events/ workshops per year with            |
|             |                                 | approximately 10 newcomers in attendance.                  |
|             |                                 |  |

#### APPENDIX B - RURAL TRANSPORTATION SERVICE PROVIDERS IN WELLINGTON COUNTY

Wellington County is host to a variety of different transportation options. The following table outlines the existing transportation options available to residents and visitors:

| Transportation  | Description   |
|---|---|
| Service   | Description   |
| RIDE WELL   | Wellington County's own rural transit pilot service, funded in part by the Provincial<br>Government until 2025. Ride Well provides on-demand service, door-to-door across<br>Wellington County and Guelph. The service operates Monday to Friday, 6:00am to<br>7:00pm, and it uses ridesharing technology to pair similar trips and passengers together.<br>More information is available at <u>www.ridewell.ca</u> |
| Wellington<br>Transportation  | This service is operated by the Community Resource Centre of North and Centre<br>Wellington. They use a fleet of volunteer drivers to help low income and seniors<br>complete essential trips such as getting to work, getting to medical appointments, and<br>getting to the grocery store.  |
| Victorian Order of<br>Nurses for Canada<br>(VON) Transportation<br>Services | Volunteer and paid drivers provide seniors and adults with disabilities transportation to medical appointments, grocery shopping, adult day programmes, and other appointments.   |
| Guelph Owen Sound<br>Transportation<br>(GOST)                               | Owen Sound's pilot service for daily commuting between Guelph and Owen Sound with stops in Mount Forest, Arthur, Fergus, Elora, and Guelph. The service runs 7 days a week, and a full schedule can be found on the GOST webpage:<br>https://www.owensound.ca/en/living/guelph-owen-sound-transportation.aspx   |
| GO Transit  | GO buses travel through the County and Guelph with stops in Aberfoyle, Rockwood, the University of Guelph, and Guelph Central Station.  |
| Denny Bus Lines Ltd.  | Offering commuter service from Erin to Guelph. There is not a set schedule, and the service runs when there is sufficient demand.   |
| Fergus-Elora Taxi   | Taxi services with a licensed Accessible vehicle, located in Fergus, Ontario.   |
| Dan's Taxi  | Taxi services located in Fergus, Ontario.   |
| TJ's Taxi Services  | Listowel-based taxi company with a fleet located in Mount Forest, Ontario.  |
| Red Car Services  | Shuttle service based in Guelph to provide intercity transportation, including frequent trips to and from the Toronto Pearson International Airport.  |
| Driverseat Guelph   | Location in Guelph provides airport shuttle services, medical drop-offs, employee shuttles, and wedding transportation options.   |
